Statement of Bettye Fine Collins
Regarding the Budget for Fiscal Year 2008
and its Treatment of Positions Unfilled in Fiscal Year 2007

I want to correct some misinformation about the draft budget for Fiscal Year 2008 that has appeared in the newspaper and elsewhere.

For many years the County has budgeted a large number of personnel positions that have remained unfilled for all or part of a budget year. During Fiscal Year 2007 these budgeted but unfilled positions have amounted to as much as $30 million on an annual basis for all funds.

In an effort to present a balanced budget for Fiscal Year 2008, $18,000,000 of requests for unfilled positions have been removed from general fund departmental budgets, although the positions themselves have not been eliminated from the manning chart. Amounts included in the departmental budgets for personnel positions exceed amounts required for current employees by approximately $1,000,000; this $1,000,000 contingency amount plus additional amounts which will be freed up as current employees retire or leave for other reasons should be sufficient for funding critical positions as determined by the Finance Committee of the Commission.

We will be examining the necessity of all positions in the County. I expect that we will be both adding positions and terminating positions in order to right size the County's work force.

The only meaningful way to control County operating expenses is to control personnel costs. To balance the budget we either have to control personnel costs or raise taxes. At the last election a majority of the voters of the County told us they did not want us to raise taxes, and I do not propose to do so.

I appreciate the participation and the cooperation of our department heads as we have engaged in this laborious budgeting process for 2008.

We look forward to better days ahead and appreciate your cooperation as we work to get our financial house in order.

Motion was made by Commissioner Langford seconded by Commissioner Smoot to divide surplus funds between the Cultural
Please consider the following when reviewing the proposed 2008 budget:

1. Neither the state auditors nor independent CPAs engaged to audit certain funds have yet issued reports relative to the fiscal year ended September 30, 2006. We believe there will be some material adjustments. In addition, we do not have FY 2007 financial information subsequent to May 31, 2007. Consequently, estimates of beginning fund balances as of October 1, 2007 are based on information that may be in error and is at best out of date.

2. The attached budget reflects expenditures in the general fund for operations contained within that fund that do not exceed revenues. However, transfers from the general fund to cover deficits in the Jefferson Rehab Health Center, Community Development/Home Program and EMA funds result in a reduction in the general fund balance of over $5,000,000.

3. The line item for debt service funds includes Fund 15 (ad valorem taxes earmarked for roads and bridges) and Fund 95 (primarily interest income on debt service funds). These funds are used to cover debt service so long as expenditures for roads and bridges in the general fund exceed the amount of debt service.

4. Revenues for all funds exceed expenditures by approximately $4,000,000.

5. Consideration should be given to planning to increase the general fund balance over time to an amount equal to six to eight weeks of expenditures. This would require a general fund balance of $45,000,000 to $50,000,000.

Commissioner Collins then asked for the vote on the original motion.

Motion was made by Commissioner Carns seconded by Commissioner Humphryes that the above resolution be adopted. Voting "Aye" Carns, Humphryes and Collins. Voting "Nay" Langford and Smoot.

The CONSULTANT shall provide engineering, application development, project coordination, and other services necessary to plan and implement a complete Infrastructure Management System (IMS) for the JEFFERSON COUNTY DEPARTMENT OF ROADS AND TRANSPORTATION (RT) that will be incorporated into the COUNTY's current enterprise computer system. This enterprise system includes Geographic Information System (GIS), Document Management System (DMS) and Business Open Systems. The Infrastructure Management System will allow the Department of Roads and Transportation (RT) to manage all infrastructure and processes required through a GIS interface. This system will include, but will not be limited to roadways, bridges, signals, signs, pavement equipment and maintenance facilities. The CONSULTANT shall provide this project plan to transfer the existing manual and/or disparate computer systems used in RT to a centralized computer system based on the COUNTY's current information system.

WHEREAS, COUNTY has previously contracted this Work to USI, Inc. which consultant performed several aspects of the Work before abandoning the contract.

It is agreed between the parties as follows:

NOW, THEREFORE, for and in consideration of the mutual covenants hereinafter stipulated, it is hereby agreed between the parties as follows:

As part of the obligation of the CONSULTANT to the COUNTY under this AGREEMENT, the CONSULTANT does hereby certify that CONSULTANT has no financial or other interest in the outcome of the project proposed under this AGREEMENT.

W I T N E S S E T H

In consideration of the mutual covenants hereinafter stipulated, it is agreed between the parties as follows:

The CONSULTANT, in developing this Infrastructure Management System, will follow Systems Development and Change Management best practices for production and infrastructure controls set forth by the Department of Information Technology Project Management Office (IT) for Jefferson County. All work by the CONSULTANT under this agreement will be subject to review by the Department of Roads and Transportation and Information Technology and approval and acceptance by the COUNTY's Director of Roads and Transportation. All applications developed for this project will be compatible with the latest release of ERSI software products.

The CONSULTANT has acquired several former employees of USI, Inc. along with certain deliverables, information and technology regarding the Work. CONSULTANT hereby acknowledges and agrees that CONSULTANT is fully informed regarding the WORK performed by USI, Inc. and hereby acknowledges and adopts the Work performed by USI, Inc. as its own work and accepts full responsibility for the Work performed by CONSULTANT pursuant to this Agreement.

ARTICLE I SCOPE OF WORK

The Work of the project shall be as hereinafter outlined and described and as further specified in the following attachments which are incorporated herein by reference:

1. Roads and Transportation Infrastructure Management System (RT IMS) Business Analysis and Feasibility Study (Attachment)
2. Gantt Chart (Attachment)
3. RIMS Network Diagram (Attachment)

The project will be divided into three (3) primary phases. Each phase will be further subdivided into multiple segments that require a product that will be delivered to the COUNTY by the CONSULTANT. Each deliverable (segment of phase) will be considered a separate, stand alone unit of work to be accomplished by the CONSULTANT and/or other entities. Each unit of work must be completed by the CONSULTANT, reviewed and approved by the COUNTY before the next unit is to be authorized. The COUNTY, at its discretion, may authorize more than one unit of work to be performed simultaneously, where it is deemed in the best interest of the COUNTY. No work will be done by the CONSULTANT unless specifically authorized by the COUNTY. The COUNTY can, at its discretion, chose to stop the project at anytime during any phase. The COUNTY will retain the right to reject any completed or partial work at any time. Each phase will be reviewed by the COUNTY and approved before the next phase of the project will begin.

The three primary phases are Departmental Re-Assessment, Process and Systems Development and Implementation. The Departmental Re-Assessment Phase will require the CONSULTANT to gather information from the COUNTY in regard to changes that have been made to departmental, interdepartmental and external workflow procedures since the original Assessment, known as the Business Analysis and Feasibility Study, was performed. It will also require the CONSULTANT to gather information regarding the current software and hardware state. This will include an update to the inventory of all hardware and software that exists in those areas of the COUNTY deemed relevant to complete the project. The CONSULTANT will document existing automated and manual processes that RT uses to successfully operate. (See Attachment A - on file in the Minute Clerk's office).

The Process and Development Phase will require the CONSULTANT to create a detailed plan for the time of Development and Implementation. This phase requires the CONSULTANT to analyze the information gathered in the Re-Assessment Phase and to create detailed plans for the hardware, software, application development, data development and workflow required for the successful implementation of a comprehensive Infrastructure Management System (IMS) for Roads and Transportation. The CONSULTANT will
provide detailed plans and timelines for the successful development and deployment of an IMS for Roads and Transportation.

The Process and Systems Development procedures will be divided into 4 primary segments including 1) Design / Architecture 2) Implementation Plan 3) Database Development Plan (GIS, business, imaging) and 4) Transition Plan. Each segment will be further subdivided into multiple segments that are clearly documented in a Microsoft project plan that will support milestones delivered to the County by the Consultant.

The Implementation Phase will require the CONSULTANT to use the project plan and the Re-Assessment documents to develop and deploy the IMS to RT. Successful implementation will be defined as a completely functioning system that incorporates all aspects of the Re-Assessment and Process, Design and System Phases. The Director of Roads and Transportation and the Chief Information Officer of the Department of Information Technologies must review and approve all aspects of the Implementation Phase before the project is considered complete.

In each phase of this project it is required that the CONSULTANT provide a monthly status report to the Director of Roads and Transportation.

The Re-Assessment phase will gather information from Roads and Transportation staff, the Department of Information Technologies (IT) staff, other COUNTY staff and other individuals and companies as required, to define the overall system requirements for the Infrastructure Management System (IMS). It will also be used to assess the manual and automated workflows that take place within Roads and Transportation (RT) and other COUNTY departments, jurisdictions or other entities such as contractors, who are considered to be part of RT's business workflow.

The CONSULTANT will update the existing list of current computer systems in all divisions of RT and will work with the IT to verify these systems. The systems will include a complete RT department system wide account of staff utilization, current software, hardware, data inventory, current backup and recovery procedures and any existing documentation of the current systems.

SECTION 1 - CHANGES OF WORK

If, during the term of this AGREEMENT, additional services are required of the CONSULTANT other than those specified in this contract, or major changes in the work become necessary or desirable, the COUNTY may order, in writing, the CONSULTANT to perform such services or make such changes termed Change Order. Change Orders are driven by a COUNTY request but are subject to review and modification by IT GIS and IT PMO based on technical design and compatibility with existing applications and infrastructure. If the CONSULTANT is of the opinion that the work he has been directed to perform is beyond the scope of this AGREEMENT and constitutes extra work, the CONSULTANT will, within ten (10) days, notify the COUNTY in writing and receive approval from the COUNTY prior to performing such work. In the event the COUNTY determines that such work does constitute extra work, additional time for completion of contract may be given and payment for the additional work shall be negotiated by Supplemental Agreement prior to work being undertaken by the CONSULTANT.

Likewise, during the term of this AGREEMENT, any service specified may be deleted and/or reduced at the discretion of the COUNTY. If such deletion or reduction becomes desirable, the CONSULTANT will be given advance notice and an equitable reduction in the CONSULTANT’s fee or cost ceiling will be made on a proportionate basis.

SECTION 2 - OWNERSHIP OF ENGINEERING DOCUMENTS

Upon completion of the work covered by this AGREEMENT, the CONSULTANT shall make available to the COUNTY all documents and data pertaining to the work or to the project, which material shall become the property of the COUNTY. All original tracings or maps and other engineering data furnished to the COUNTY by the CONSULTANT shall bear thereon the endorsement of the CONSULTANT.

The CONSULTANT shall endorse the original title or cover sheet of all reports and engineering data required to be furnished by him under the terms of this AGREEMENT. All endorsements shall contain the seal and original signature of an Alabama licensed professional engineer who is a bona fide employee of the CONSULTANT.

SECTION 5 - DELAYS AND EXTENSIONS

In the event that unavoidable delays prevent completion of the services to be performed under this AGREEMENT in the time specified in Article III - Time of Beginning and Completion, the COUNTY may grant a time extension to any or all phases of the work, provided written application is made by the CONSULTANT within ten (10) days after the alleged delay has occurred.

SECTION 6 - TERMINATION OF CONTRACT FOR BREACH

A. The AGREEMENT may be terminated by the COUNTY for any of the following reasons:

1. Substantial evidence and belief that the progress being made by the CONSULTANT is insufficient to complete the Work within the specified time.

2. Deliberate failure on the part of the CONSULTANT to proceed with the Work when so instructed by the COUNTY or to observe any requirement of these Specifications.

3. Failure on the part of the CONSULTANT to promptly make good any defects in materials or construction that may be called to his attention by the COUNTY.

B. Before the AGREEMENT is terminated, the CONSULTANT and his surety will first be notified in writing by the COUNTY of the conditions which make termination of the AGREEMENT imminent. Fifteen (15) days after notice is given, if no effective effort has been made by CONSULTANT or his surety to correct the conditions for which complaint is made, the COUNTY may declare the AGREEMENT terminated, and will notify the CONSULTANT and his surety accordingly.

C. Upon receipt of notice from the COUNTY that the AGREEMENT has been terminated, the CONSULTANT shall immediately discontinue all operations, safely secure all items of the Work, and remove his equipment. The COUNTY may then proceed with the
Work in any lawful manner that it may elect, until it is finally completed. When thus finally completed, the total cost of the Work (including all previous payments made to the CONSULTANT) will be computed and if this total cost is greater then the AGREEMENT price, the difference shall be paid to the COUNTY by the CONSULTANT or his surety.

SECTION 7 - TERMINATION OR ABANDONMENT FOR CONVENIENCE
1. The COUNTY shall have the right to abandon or terminate the AGREEMENT at any time, and such action shall, in no event, be deemed a breach of contract.
2. The COUNTY has the right to terminate this AGREEMENT at its sole discretion upon ten (10) days written notice to the CONSULTANT and make settlement with the CONSULTANT upon an equitable basis in accordance with the following. In determining the final compensation to the CONSULTANT, the COUNTY shall apply the following:
   A. No consideration will be given to profit which the CONSULTANT might have made on the uncompleted portion of the work.
   B. If the AGREEMENT provides for a lump sum amount, final compensation to the CONSULTANT shall be determined by the COUNTY establishing the percent of satisfactory work performed by the CONSULTANT prior to the termination of the AGREEMENT multiplied by the contract amount, less any payments previously made.
   C. If the AGREEMENT does not provide a lump sum amount, final compensation to the CONSULTANT shall be determined by the COUNTY confirming all reimbursable costs incurred for satisfactory work performed by the CONSULTANT prior to the termination of the AGREEMENT, less any payments previously made.
   D. CONSULTANT shall not be paid on account of loss of anticipated profit or revenues or extended overhead or interest or underutilization of personnel or economic loss whatsoever arising out of or result from such termination.

Nothing contained in this paragraph should be construed to obligate CONSULTANT to indemnify the COUNTY for its own negligence, the negligence of its contractors or subcontractors or others.
3. The CONSULTANT, without extra compensation, shall carry insurance of the kinds and in amounts set out below. All insurance shall be by companies authorized to do business in Alabama involving those types of insurance. Before beginning work, the CONSULTANT shall file with the COUNTY a certificate from his insurer showing the amount of insurance carried and the risk covered thereby or a copy of the required insurance policies.

   General Liability and Property Damage $300,000.00

this AGREEMENT shall apply to and bind the party or parties to whom such work is consigned, subject or transferred as fully and completely as the CONSULTANT is hereby bound and obligated.

SECTION 12 - EMPLOYMENT OF COUNTY WORKERS

1. The CONSULTANT shall not engage, on full or part time or other basis during the period of the AGREEMENT, any professional or technical personnel who is or has been at any time during the period of this AGREEMENT in the employ of the COUNTY, except regularly retired employees, without written consent of the public employer of such person.

2. The CONSULTANT warrants that he has not employed or retained any company, or person other than a bona fide employee working solely for the CONSULTANT, to solicit or secure this AGREEMENT, and that he has not paid or agreed to pay any company or person, other than a bona fide employee working solely for the CONSULTANT, any fee, commission, percentage brokerage fee, gifts or any other consideration contingent upon or resulting from the award or making of this AGREEMENT. For breach or violation of this warranty, the COUNTY shall have the right to annul this contract without liability or, at its discretion, deduct from the contract price or consideration or otherwise recover the full amount of such fee, commission, percentage brokerage fee, gifts or contingent fee.

3. No COUNTY official, employee of the COUNTY, shall be admitted to any share or part of this AGREEMENT, or to any benefit that may arise therefrom, except the use of the facility being designed as enjoyed by the general public.

SECTION 13 - CONTROL

All work by the CONSULTANT shall be done in a manner satisfactory to the COUNTY and in accordance with the established policies, practices and procedures of the COUNTY.

SECTION 14 - CONDITIONS AFFECTING WORK

1. The CONSULTANT shall be responsible for having taken steps reasonably necessary to ascertain the nature, location, scope and type of work hereunder and the general and local conditions which can affect the work or the cost hereof. Any failure by the CONSULTANT to do so will not relieve him from responsibility for successfully performing the work without additional expense to the COUNTY. The COUNTY assumes no responsibility for any understanding or representation by any of its officials or agents prior to the execution of this AGREEMENT, unless such understandings or representation by the COUNTY are expressly stated herein. The CONSULTANT and subcontractor shall maintain all books, documents, papers, accounting records and other evidences pertaining to costs incurred for this project, and to make such material available at their respective offices at all times during the contract period and for three (3) years from the date of final payment of the COUNTY funds under the terms of the contract, for inspection by the COUNTY, or any authorized representative of the COUNTY government, and copies thereof shall be furnished if requested.
