THIS AGREEMENT entered into this 7th day of September, 2007, by and between Jefferson County, Alabama, hereinafter called "the County", and, Auburn University at Montgomery d/b/a Center for Business & Economic Development, hereinafter called "the Contractor". The effective date of this agreement shall be October 1, 2007.

WHEREAS, the County desires to contract for consulting services for the Human Resources Department, hereinafter called "Human Resources"; and

WHEREAS, the Contractor desires to furnish said consulting services to the County;

NOW, THEREFORE, the parties hereto do mutually agree as follows:

1. ENGAGEMENT OF CONTRACTOR: The County hereto agrees to engage the Contractor and the Contractor hereby agrees to perform the services hereinafter set forth.

2. SCOPE OF SERVICES: The Contractor shall perform all necessary professional services provided under this Contract as required by the County. The Contractor shall do, perform, and carry out in a satisfactory and proper professional manner an organizational planning and development overview of the Human Resources Department to include the following:

   Mission Statement Development
   Staffing Analysis
   Updating and Revision of current Job Descriptions
   Classification and Compensation recommendations for suggested new positions
   Recruitment recommendations for new or unique positions
   Structured Oral Interview Questions for new or unique positions
   Prepare Final Documentation Report

Deliverables for this assignment include:

1. Mission Statement Development
   Contractor's staff will meet with Jefferson County's Human Resources Department staff, as well as other identified relevant stakeholders, to create a mission statement for the department. The mission statement should describe both the purpose and direction of the organization which can become a starting point for developing business goals. Contractor's staff will hold brainstorming meetings with various constituent groups in order to gather the information necessary to identify the purpose and direction of the organization and express the organization's philosophy and values.

2. Organizational Structure and Staffing Analysis
   In order to make recommendations towards optimizing the effectiveness, productivity and communication within Human Resources, Contractor's staff will meet with the Jefferson County Human Resources Department management employees to review current organizational charts and gain an understanding of reporting relationships, the purpose of each unit/function, and the processes by which each function is carried out. Contractor staff will research how similar types of county human resources departments are structured, as well as best practices for similar departments. Contractor staff will make specific recommendations as to the structure and
3. Job Description Review and Update

Contractor staff will meet with incumbents and supervisors from each job classification within Human Resources. During the meetings, Contractor staff will collect information about general work behaviors and tasks performed by incumbents in each position; the Knowledge, Skills and Abilities (KSAs) needed to perform the job; and possible minimum qualifications such as certifications or educational requirements. In accomplishing this, the Contractor will work with Human Resources to obtain current job descriptions and job analysis information from the Personnel Board of Jefferson County. Contractor staff will work with Human Resources personnel and supervisors to document discrepancies and/or concerns with the existing job descriptions. Comparisons will be made, changes implemented, and descriptions updated.

Contractor staff will work with Human Resources staff to develop job descriptions, including minimum qualifications, for new or unique positions within the department. After all job descriptions have been developed, job descriptions will be reviewed by a technical advisory group for accuracy and completeness.

4. Classification and Compensation Survey

Upon finalization and approval of all job descriptions, Contractor will work with Human Resources staff to determine if any of the recommended new positions will fit into the current classification and compensation system. If any of the newly recommended positions will not fit with the current system, Contractor will conduct a compensation survey of similar positions using salary survey software and other available data to determine the salary range of these positions.

5. Recruiting

Contractor staff will research and identify appropriate places from which to recruit qualified job applicants for positions which are new or unique to Human Resources. This may include utilizing internet resources, advertising in industry-specific publications, and attending industry-specific conferences or seminars.

6. Structured Oral Interview Development

Contractor will develop Structured Oral Interview questions for new and unique positions within the department. The Structured Oral Interview is developed to create a situational assessment for those behaviors which Contractor cannot actually simulate. Structured Oral Interview questions can take two (2) forms: 1) a hypothetical situation or 2) past behavior description. In a hypothetical situation, candidates are given some background information about a problem that could occur on the job. Candidates are then asked how they would respond (i.e. what actions they would take) in dealing with the problem or situation as if they were in the assigned role. Past behavior descriptions ask candidates to describe a time when they have experienced a certain situation in the past (e.g. "Tell me about a time when you have had to work under multiple deadlines to accomplish a task."). Candidates are asked to describe the circumstances, the actions they took, and the outcome of the situation.

Contractor will conduct a strategic job analysis for each new position prior to developing Structured Oral Interview questions. This will involve meeting with the future supervisor of the position, management, peers who would interact frequently with the new position to determine the work behaviors and tasks, as well as the KSAs and physical abilities needed by an employee within a target job. Depending on the number of individuals participating in this process, they may be asked to complete a formal job analysis questionnaire. Contractor will then analyze the results and develop the job content domain. From that information, the test content domain consisting of the KSAs that are sufficiently important to the position and necessary at entry into the job will be developed.

7. Final Documentation Report

Upon completion of the above mentioned Deliverables, Contractor will furnish to the Human Resources Director seven (7) copies and one (1) CD of a final documentation report summarizing and describing all the findings and recommendations noted during the Contractor's assessment. An additional copy will also be forwarded to the Commission President, Betty Fine Collins, for her review.

3. TERMS OF AGREEMENT AND AUTHORIZATION TO PERFORM WORK: The Contractor shall be available to render professional consulting services to Human Resources at any time after the effective date of this Contract upon notice to proceed from the Director of Human Resources. The completion date will be nine months from the start of the project or no later than June 30, 2008 unless extended by mutual agreement of all parties.

4. COMPENSATION: Prior to starting work, Contractor and Human Resources Director shall schedule a kickoff meeting and develop a timetable for completing those deliverables listed above under the Scope of Services paragraph. The Contractor shall submit itemized bills, denoting what deliverables were completed or those deliverables that were initiated during the billing period and hours worked. The Contractor shall be compensated for services rendered for a fixed fee price of $148,000.00 billed in nine equal monthly payments of $16,444.45 each payable within 30 days of receipt of invoice. This fixed fee does not include the cost of reimbursable expenses, not to exceed $5000.00. These expenses cover travel related costs, printing, copying, and refreshments for meetings. Separate invoices shall be submitted for reimbursable items at actual cost.

5. INDEPENDENT CONTRACTOR: The Contractor acknowledges and understands that the performance of this contract is as an
independent contractor and as such, the Contractor is obligated for Workmen's Compensation, FICA taxes, Occupational Taxes, all applicable federal, state and local taxes, etc. and that the County will not be obligated for same under this contract.

7. MISCELLANEOUS REQUIREMENTS: Upon execution of this contract, the Contractor shall furnish the Jefferson County Finance Department with information required for Form 1099 reporting and other pertinent data required by law.

8. TERMINATION OF CONTRACT: This contract may be terminated by the County with a thirty (30) day written notice to the other party regardless of reason. Any violation of this agreement shall constitute a breach and default of this agreement. Upon such breach, the County shall have the right to immediately terminate the contract and withhold further payments. Such termination shall not relieve the Contractor of any liability to the County for damages sustained by virtue of a breach by the Contractor.

9. LIABILITY: The Contractor shall not, without prior written permission of the COUNTY specifically authorizing them to do so, represent or hold themselves out to others as an agent of or act on behalf of the COUNTY. Neither party shall be responsible for personal injury or property damage or loss except that resulting from its own negligence or the negligence of its employees or others for whom the party is legally responsible.

10. AMENDMENT OF AGREEMENT: This Contract contains the entire understanding of the parties, and no change of any term or provision of the Contract shall be valid or binding unless so amended by written instrument which has been executed or approved by the County. Any such amendment shall be attached to and made a part of this Contract. A written request must be made to the County and an amended agreement will be executed.

11. INSURANCE: Contractor will maintain such insurance as will protect him and the County from claims under Workmen's Compensation Acts and from claims for damage and/or personal injury, including death, which may arise from operations under this contract. Insurance will be written by companies authorized to do business in Jefferson County, Alabama. Evidence of insurance will be furnished to the Purchasing Agent not later than seven (7) days after purchase order date.

12. COUNTY FUNDS PAID: Contractor and the Contractor representative signed below certify by the execution of this Agreement that no part of the funds paid by the County pursuant to this Agreement nor any part of the services, products or any item or thing of value whatsoever purchased or acquired with said funds shall be paid to, used by or used in any way whatsoever for the personal benefit of any member or employee of any government whatsoever or family member of any of them, including federal, state, county and municipal and any agency or subsidiary of any such government; and further certify that neither the contractor nor any of its officers, partners, owners, agents, representatives, employees or parties in interest has in any way colluded, conspired, connived, with any member of the governing body or employee of the governing body of the County or any other public official or public employee, in any manner whatsoever, to secure or obtain this Agreement and further certify that, except as expressly set out in the scope of work or services of this Agreement, no promise or commitment of any nature whatsoever of any thing of value whatsoever has been made or communicated to any such governing body member or employee or official as inducement or consideration for this Agreement.

13. Any violation of the above certification shall constitute a breach and default of this Agreement which shall be cause for termination.
