THIS AGREEMENT is entered into by and between the State of Alabama Department of Transportation acting by and through its Transportation Director, hereinafter referred to as the STATE, and Jefferson County Commission, Jefferson Co., AL, hereinafter referred to as the UTILITY.

WITNESSETH:

WHEREAS, the STATE proposes a project of certain highway improvements in Jefferson County, Alabama, said project being designated as Project No. STPBH-STPAA-7376(600) and consisting approximately of the following: Vehicle/Pedestrian Bridge on F.L. Shuttlesworth Drive from 29th Ave N to 32nd Ave N - Grade, Drain, Base, Pave, Bridge, Signal Removal - In The City Limits of Birmingham, Jefferson County; and

WHEREAS, the UTILITY is the owner of certain facilities located on private or public right-of-way, as applicable, at places where they will interfere with the construction of said project unless said facilities are relocated; and

WHEREAS, the Transportation Director has determined that the relocation of the facilities hereinafter referred to is necessitated by the construction of said project and has requested or ordered, as applicable, the UTILITY to relocate same; and

WHEREAS, under the laws of Alabama, the STATE is required to compensate the UTILITY for all or part of such relocation;

NOW, THEREFORE, the parties hereto agree as follows:

1. The UTILITY, not being staffed or equipped to perform the relocation, requests that the relocation work be included in the STATE'S Highway Construction Contract. The relocation of the facilities will be accomplished in accordance with and as shown by the UTILITY’S reproducible mylar plans, specifications, and estimate transmitted herewith and are incorporated by reference herein as if fully set forth. The estimated cost of the “In-Kind” relocation including engineering is $1,258,907.00.

   a. The actual cost of relocation will not be reimbursed to the UTILITY but will be paid directly to the STATE’S contractor by the STATE as a part of its contract.

   b. In the event a Consultant Engineer acceptable to the STATE is utilized by the UTILITY, the actual cost of the Engineer will be reimbursed by the STATE to the UTILITY. If the UTILITY, with approval of the STATE, designs the relocation work with company employees, the STATE will reimburse the UTILITY for the actual cost of the design. Payment for actual cost in either instance will be made upon receipt and verification of appropriate invoices from the UTILITY provided the actual cost is established by the records of the UTILITY when kept in accordance and in compliance with general accounting practices acceptable to the STATE and in compliance with Parts 30 and 31, Federal Acquisition Regulations.

   The detailed cost estimate will be prepared on the State's Form U-10 or the UTILITY'S own form giving the same type of information. The estimated cost for Engineering required by the relocation of utility facilities is included in the total estimated cost of relocation set forth hereafter in this Agreement, and will be divided into three (3) phases: (a) Phase I - Concept; (b) Phase II - Design; and (c) Phase III - Construction. Each Phase of the Engineering work must be estimated and performed independently of the other. The three Engineering
Phases will apply to work performed by UTILITY Engineering Personnel and/or Consultant Engineers. The UTILITY will not proceed with any additional Phase of the required engineering work until it has received written notification from the STATE approving the completion of the previous Phase and written instruction to proceed with the next Phase.

The STATE has the right to notify the UTILITY, in writing, to cease Engineering work at any time it deems necessary. If so notified, the UTILITY shall cause all work to cease within four (4) working days and will invoice the STATE for the reimbursable work completed to date.

The STATE's share of the engineering charges shall be limited to the "in-kind" work only. c. This agreement includes betterment

X Yes  No

If the relocation plan contains betterment, the foregoing blank will be checked. Two (2) estimates will be required, an "in-kind" and a "betterment" estimate. After opening of bids in accordance with 23 CFR Part 635 and applicable State law and prior to award of the STATE's Contract, the STATE will invoice the UTILITY for the low-bid Contractor's price for the betterment items. This invoice will be paid by the Utility prior to contract award, or the "betterment" items will be deleted from the contract and it may be awarded without betterment. At the completion of the project, a final accounting will be held. At this time any funds due the UTILITY will be returned or if funds are due the STATE, the UTILITY will be sent a Final Invoice for the amount due and the UTILITY will promptly pay such amount to the STATE.

The total actual cost of relocation, whether the facilities are on private or public right-of-way, shall be adjusted for betterment, if any, as defined and provided for in 23 C.F.R. Part 645. Excluding betterment costs, the total estimated cost of relocation, including Engineering is $1,258,907.00. The total estimated cost including betterment is $1,258,907.00.

If an adjustment for betterment is applicable, the STATE shall reimburse the UTILITY based on the percentage ratio of "in-kind" cost and "betterment" cost and being 100.00 percent of the total actual cost of relocation, as "in-kind", and the remaining 0.00 percent thereof shall be for the account of the UTILITY for betterment. If there are changes during construction and/or the actual construction cost percentage becomes substantially different from the construction estimate, then the STATE may recalculate the percentages at any time.

The UTILITY will conform to the provisions of the latest edition of the State of Alabama Department of Transportation Utility Manual, as the provisions are applicable hereto, for both installation and maintenance of such facilities. The Utility Manual is hereby incorporated by reference herein as if fully set forth.

The STATE Project Engineer shall have final authority in all matters affecting the work of the STATE's Contractor. In the event the UTILITY has an Inspector on the project, the Inspector will not issue any instructions to the STATE's Contractor. All instructions to the STATE's Contractor with regard to the work provided for under this agreement will be issued by the STATE Project Engineer, after consultation with the UTILITY Inspector or Representative if found necessary by the STATE Project Engineer.

Code of Federal Regulations 23 C.F.R. Part 645 is hereby incorporated by reference herein as if fully set forth, and will be followed by the UTILITY as the provisions are applicable hereto.

The UTILITY will procure and pay for all licenses and permits that are necessary for its performance of the work.

Where the UTILITY has a compensable property interest in its existing location (herein referred to as private right-of-way) by reason of holding the fee, an easement or other property interest, evidence of such compensable property interest will be submitted to the STATE by the UTILITY for review and approval.

If the UTILITY is required to move all of its facilities from a portion of its private right-of-way, upon completion of the relocation provided for herein, the UTILITY will convey to the STATE by appropriate instrument the portion of its private right-of-way located within the right-of-way of the above referenced project.

In the event the UTILITY is required to relocate any of its facilities which are located on its private right-of-way to a new location on public right-of-way or if any such facilities are to be retained in place within the public right-of-way due to this project, the following provisions will apply:

a. The cost of relocation will include reimbursement for acquisition of right-of-way by the UTILITY to place necessary guy wires and anchors on private lands adjacent to the highway right-of-way and the rights to cut, trim and remove, initially and from time to time as
necessary, trees on private lands adjacent to the highway right-of-way which might then or thereafter endanger the facilities of the UTILITY.
b. Reimbursement for future relocation of the UTILITY’S facilities will be in accordance with State law in effect at the time the relocation is made; provided, however, the UTILITY will be reimbursed for the cost of any future relocation of the facilities, including the cost of acquisition of equivalent private right-of-way if such future relocation is outside the highway right-of-way and the relocation is required by the STATE, and provided that the prior relocation from private right-of-way to public right-of-way was without compensation to the UTILITY for its compensable property interest in its private right-of-way.

10. The UTILITY is responsible, and will not hold the State of Alabama, the Department of Transportation, the officials, officers, and employees, in both their official and individual capacities, and their agents and/or assigns responsible for any damages to private property, public utilities or the general public, caused by the conduct, (in accordance with Alabama and/or Federal law) of the UTILITY, its agents, servants, employees or facilities.

11. By entering into this agreement, the UTILITY is not an agent of the State, its officers, employees, agents or assigns. The UTILITY is an independent entity from the State and nothing in this agreement creates an agency relationship between the parties.

12. In the event that a Utility - Consultant Engineering Agreement for this project is entered into between the UTILITY and a Consulting Engineer, the following provisions will apply:
   a. The UTILITY has complied or will comply with and fulfill all obligations, requirements, notifications, and provisions of the Utility - Consultant Engineering Agreement executed for this project work which are for the benefit or protection of the STATE.
   b. The UTILITY has obtained or will obtain all approvals and authorizations required by the STATE which are provided for in the Utility - Consultant Engineering Agreement.
   c. No reimbursement payments will be due and none will be made by the STATE until the Utility - Consultant Engineering Agreement is complied with faithfully by the UTILITY and Consulting Engineer.

13. Nothing contained in this Agreement, or in its execution, shall be construed to alter or affect the title of the STATE to the public right-of-way nor to increase, decrease or modify in any way the rights of the UTILITY provided by law with respect to the construction, operation or maintenance of its facilities on the public right-of-way.

14. Paragraph 14 set forth below is applicable to this Agreement only if Federal appropriated funds are available or will be available in the project by which the relocation required by this Agreement is necessitated.

Jun-26-2014-459

BE IT RESOLVED BY THE JEFFERSON COUNTY COMMISSION that the President is authorized to execute the following intergovernmental agreement between Jefferson County, Alabama and Pelham City Schools as a participant in the Jefferson County Regional Purchasing Cooperative.

INTERGOVERNMENTAL AGREEMENT
ESTABLISHING
THE PURCHASING ASSOCIATION OF CENTRAL ALABAMA

This Agreement made this ___ day of _____, 2014 between the County of Jefferson, Alabama, and such other public bodies located within Jefferson County and other counties of Alabama as choose to be governed by the provisions of the Purchasing Association of Central Alabama as hereinafter set forth.

WITNESSETH:

In consideration of the premises and the mutual covenants and agreements stipulated herein, and pursuant to the authority granted by the State of Alabama Interlocal Cooperation Act of 1969 and under the General Provisions of the public contracts law of the State of Alabama (Code of Alabama, § 41-16-21.1 and 41-16-50), the parties hereto do hereby agree as follows:

SECTION 1

The parties hereto do hereby create, as a voluntary association, the Purchasing Association of Central Alabama, hereinafter referred to as “the Cooperative,” for the purpose of coordinating cooperative joint purchases for the mutual economic advantage of its members. The Cooperative shall consist of a representative from each public entity participating in this Agreement. Said Cooperative shall be free to adopt such rules for organization and procedure, as it may deem suitable for the conduct of its business.

SECTION 2

The representative of each participating jurisdiction will have membership on the Advisory Board of the Cooperative, with one vote being allocated to each participant. Each participating unit of government shall determine the manner of selecting its representative; however, it is recognized that personnel with responsibilities associated with the purchasing process are more ideally suited as representatives.

SECTION 3

The parties to this Agreement will identify by way of their membership on said Advisory Board those items and classes of items for which joint purchase may be advantageous for the period commencing with the execution of this Agreement and continuing until terminated, as hereinafter provided.

SECTION 4

The specifications for items to be purchased will be prepared by the Purchasing Department of the Jefferson County Commission (hereinafter referred to as "the County") for use by all members of the Cooperative. Where feasible, the county shall seek input from the other participants to ensure that said specifications meet the broadest range of needs. Each participating government shall identify the items to be jointly purchased and indicate therein the quantities, or range of quantity desired, the location for delivery and other requirements, to permit
the preparation and filing of plans and specifications as provided by law. In all cases where appropriate, the Cooperative shall seek to use standard specifications such as those used by the State of Alabama, the National Institute of Governmental Purchasing, the American Society of Testing and Materials, and other appropriate standards not cited herein.

SECTION 5

The County shall act as the lead jurisdiction for the Cooperative and will assume the responsibility for coordinating and advertising for bids on behalf of the other members of the Cooperative participating in a particular joint purchase. As such, the County shall be designated to receive and open bids on behalf of the other participating governments at the time and in the manner provided by law.

SECTION 6

The County will receive responses to all bids. Not later than fifteen (15) days following the receipt of bids, the County will submit to all participating members a complete tabulation of all bids received and a recommendation as to the lowest responsible bidder.

If the County determines that the lowest bidder is not responsible and accordingly certifies that some other bidder has the lowest responsible bid, it will include an explanation and report on its findings along with the tabulation and recommendation.

SECTION 7

Contracts of purchase will be awarded to the lowest responsible bidder as recommended by the County in consultation with its fellow members, except as provided for herein. Each party to this Agreement shall prepare separate and individual contracts and requisitions when providing for procurement of items coordinated through and in accordance with any recommendation by the County.

SECTION 8

Each individual member may reserve the right to disregard the recommendation of the County as to the lowest responsible bid in favor of applying its existing residence privilege pursuant to the public contract law of the State of Alabama (Code of Alabama, §41-16-50). In that event, each member jurisdiction may reserve the right to utilize specifications and bids prepared through the Cooperative and to award contracts of purchase, individually and on its own behalf; provided, however, that invitations for such individual bids are not advertised, nor are awarded within sixty (60) days of the period in which the County is soliciting and awarding bids for the same products and/or services, except in cases of emergency or extreme hardship pursuant to the public contract law of the State of Alabama (Code of Alabama §41-16-53).

SECTION 9

The County will not assume any financial or contractual obligation for any commodities, materials, and/or services for which the County coordinates the bidding on behalf of the Cooperative. Each participating government assumes sole and complete responsibility for its own procurement, delivery, storage, and payment, and will not impose or accept any additional obligations on either the County or any other member of the Cooperative relating to those responsibilities, either by way of this Agreement or by stipulating to its provisions.

SECTION 10

Any dispute arising between any of the parties hereto and a successful bidder not relating to either the validity of the award or contract of purchase or contract of service, or the rejection of any bid or bids will be settled by and at the cost of that party involved in the dispute and without obligation or responsibility on the part of the County, the Cooperative, or the other member jurisdictions.

SECTION 11

In the interest of the success of the Cooperative, those parties stipulating to this Agreement will be required to remain as members of the Cooperative for a period of not less than one (1) year from the date of inception.

SECTION 12

Any jurisdiction that wishes to terminate its membership in the Cooperative may do so by indicating the same in writing to the Purchasing Manager for the Jefferson County Commission. Members will agree to exercise this option only at the end of each fiscal year of the Cooperative. Likewise, membership in the Cooperative will be terminated automatically upon legal dissolution of any participating entity. However, under no circumstances will any exiting or dissolved jurisdiction be entitled to reimbursement of fees or other funds previously expended for the establishment, operation, or maintenance of the Cooperative.

SECTION 13

To facilitate the success of the Cooperative, the County agrees to install an assistant purchasing manager who will have primary responsibility for contract design and coordination with the other member governments. The total expense of these personnel will be divided among the participating governments. The participating members reserve the right to assess themselves, in proportion to their contribution, based on a fee and formula to be determined on an annual basis.

There is hereby established an executive committee comprised of the chief executive or their designate of each participating entity. The executive committee shall promulgate rules, regulations, and/or bylaws in accordance with the laws of the State of Alabama, for the operation and maintenance of the Cooperative, including but not limited to, the determination of the abovementioned assessment.

SECTION 14

The members of the Cooperative shall have the power, pursuant to laws of the State of Alabama (Code of Alabama §41-16-21.1 and 41-16-50), to jointly contract with consultants and other such resources as is deemed necessary to provide services authorized by law for the
development and realization of the Cooperative's objectives.

SECTION 15

This Agreement will take effect upon execution by the signatories. Thereafter, additional public entities within Jefferson County and other counties of Alabama, may elect to join the Cooperative by executing this Agreement in the form prescribed by the existing members of the Cooperative, and such execution subsequent to the date herein written above will not be deemed to require re-execution of this Agreement by any party previously stipulating to its provisions.

IN WITNESS WHEREOF, the parties hereto, having obtained the full consent of their governing bodies, have caused this Agreement to be executed by their duly authorized officers on the day and year written above.
