PAYROLL AUTHORIZATION

RECITAL:

Alabama law requires Jefferson County to pay specified annual compensation to the Birmingham and Bessemer District Attorneys and their deputies. The law also requires the State to pay a portion of the compensation for the District Attorneys and for some of the Deputy District Attorneys. Where the compensation responsibility is divided between the County and the State, the Attorneys’ pension membership is also divided between the County pension and the State pension. Through this Agreement, the parties establish an option for the District Attorneys and the Deputy District Attorneys to elect to have the County provided compensation, pension contribution and health insurance amounts for single or family coverage paid directly to the Office of Prosecution Services (OPS) and merged with the State provided compensation and paid to the Deputy District Attorney on the OPS payroll so that the entire compensation may be considered for the State pension.

WITNESSETH:

IN CONSIDERATION OF THE PREMISES, Jefferson County (the County), the District Attorney and the Deputy District Attorney agree as set out below:

Definition: As used herein the term “County provided compensation/benefits” shall mean:

a) The respective salary amounts for DDA’s established by legislative act (and as amended) applicable to the Birmingham and Bessemer District Attorneys Offices and directed to be payable by Jefferson County as salary compensation;

b) An amount equal to 3% of the salary compensation representing an employer pension match;

c) An amount equal to 75% of the amount paid by the State toward the cost of State health insurance for either single or family coverage elected by the DDA.

* In accordance with past practice, the County shall include an amount for FICA upon the condition that the County will be reimbursed by the State.

1) By execution below, the Deputy District Attorney hereby elects to have his County-provided compensation/benefits paid directly to the Office of Prosecution Services and merged with his State-provided compensation and paid to him on the OPS payroll.

2) By execution below, the District Attorney hereby endorses and approves the above election of the Deputy District Attorney.

3) The County hereby agrees to make the quarterly payments in advance, no later than the 10th day of the months January, April, July and October of each year, of the County-provided compensation/benefits, directly to the Office of Prosecution Services for merger with the State-provided compensation and paid to the deputy district attorney on the OPS payroll.

4) The amount initially to be paid by the County is set out on the attachment. Provided however, the amounts shall be automatically amended to reflect changes in the compensation to be paid by the County; i.e., the annual step raises and promotions for Deputy District Attorneys and changes in insurance coverage and the amount paid by the State.

5) The effective date of this Agreement shall be September 29, 2014.

Questions Sent to Carol Sue Nelson (County Attorney), George Tablack (CFO) and Roosevelt Butler (CIO) on September 9, 2014 with September 10, 2014 Answers

Is the source code in escrow? What is a triggering event?

See Section B, Paragraph 3 of the License and Services Agreement – page 4. Source code is in escrow with Iron Mountain. The County has the right, on payment of a $700 per year fee, to be added as a beneficiary under the same agreement by which all of Tyler’s customers since 2008 have access to the source code of the software. The release events are: (1) mutual written instruction of Tyler and the County, (2) Tyler's bankruptcy or insolvency, or (3) Tyler's failure to cure a material default under the License and Services Agreement with the County. The release events are better than market release events, which typically are limited to the insolvency or dissolution of the business of the vendor.

What exactly does software maintenance include and exclude? Particularly, what does it include as it relates to bug fixes and software enhancements?

See Exhibit C of the License and Services Agreement – Maintenance and Support Agreement. Under the Maintenance Support Agreement Tyler will: (1) maintain Tyler Software in accordance with the warranty set forth in the License and Services Agreement as long as the County doesn't make unauthorized modifications, (2) provide telephone support/help-desk support, (3) maintain personnel that are sufficiently trained to be familiar with the Tyler Software and Third Party Software in order to provide maintenance and support services,
(4) provide the County with a copy of all releases to the Tyler Software (including updates and enhancements and updates to the applicable user guides) that Tyler makes generally available without additional charge to customers who have a maintenance and support agreement in effect, (5) support prior releases of the Tyler Software in accordance with our then-current release life cycle policy, and (6) modify the Tyler Software products to remain compliant with applicable state and federal laws, rules and regulations, for no additional cost beyond the annual maintenance and support fees. Notwithstanding any end of life policy, Tyler agreed to maintain the Tyler Software for at least 7 years. What does the contract say about response times?

See Exhibit C, Schedule 1 – Support Call Process – of the License and Services Agreement. The County is responsible for categorizing support calls by priority or severity of the issue. Priority 1 Call - issue is critical to the client, the Munis ERP application or process is down. Priority 2 Call - issue is severe, but there is a work around the County can use. Priority 3 Call - issue is a non-severe support call from the County. Priority 4 Call - issue is non-critical for the County, and the County would like to work with Support as time permits. Depending on the County's classification of an issue, Tyler is required to respond as follows:

<table>
<thead>
<tr>
<th>Open Call Priority</th>
<th>Maximum number of days a support call is open</th>
<th>Support managers and analysts review open calls</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Less than a day</td>
<td>Daily</td>
</tr>
<tr>
<td>2</td>
<td>10 Days or less</td>
<td>Every other day</td>
</tr>
<tr>
<td>3</td>
<td>30 Days or less</td>
<td>Weekly</td>
</tr>
<tr>
<td>4</td>
<td>60 Days or less</td>
<td>Weekly</td>
</tr>
</tbody>
</table>

If the response time question relates to system response times – We asked Tyler to provide a system response warranty but were told that the system response times are tied to the County's infrastructure equipment and vary based on the speed of the County's equipment. What warranties are included?

See See Section B, Paragraph 3 and 4 of the License and Services Agreement – page 4- 5. Limited Software Warranty. The Tyler Software will be without Defect as long as the County has a Maintenance and Support Agreement in effect. A Defect is the failure to comply with written specifications setting forth the functions, capabilities, results and descriptions of, and technical information relating to, the individual Tyler Software products, data conversion and ERP. If the Tyler Software does not perform as warranted, Tyler will use all reasonable efforts, consistent with industry standards, to cure the defect as set forth in the Maintenance and Support Agreement. In the event Tyler cannot cure the Defect or provide a product with materially equivalent functionality, the County is entitled to a refund of the license fees paid for the Tyler Software product containing the Defect, as depreciated on a straight-line basis over a seven (7) year period commencing on the Available Download Date. Should a refund be issued pursuant to this Section before Live use of the Tyler Software product subject to the refund (not in any event not to exceed two (2) years from the Effective Date), no proration shall apply. Limited Integration Warranty. Tyler warrants that the modifications and interfaces will integrate with the Tyler Software as set forth in the Tyler RFI or as otherwise indicated in the License and Services Agreement as part of the ERP. If the modifications and interfaces do not perform as warranted, Tyler will use all reasonable efforts, consistent with industry standards, to cure the Defect as set forth in the Maintenance and Support Agreement. In the event Tyler cannot cure the Defect or provide a materially equivalent integration, the County will be entitled to a refund of the fees paid for the defective modifications or interfaces, as depreciated on a straight-line basis over a seven (7) year period commencing on the Available Download Date. Should a refund be issued pursuant to this Section before Live use of the modification or interface subject to the refund (not in any event not to exceed two (2) years from the Effective Date), no proration shall apply. See Section C, Paragraph 6 of the License and Services Agreement – page 6. Services Warranty. All services will be performed in a professional, workmanlike manner, consistent with industry standards. Personnel assigned to the project will be appropriately trained, experienced and qualified to perform the tasks for which they are responsible. Tyler will use best efforts to assure continuity in key personnel (as identified in the Statement of Work) assigned to the project to efficiently perform its obligations as set forth in the Final Project Plan. In the event Tyler provides services that do not conform to this warranty, Tyler will re-perform such services at no additional cost to the County. If the County is not satisfied with the training, experience of qualifications of any personnel assigned to the project, it will notify Tyler in writing and the parties will use commercially reasonable efforts and cooperate in good faith to resolve the County's dissatisfaction. To minimize the risk of service failures, the County vetted and interviewed the Project Manager and subject matter experts that Tyler will provide for the project, and the County required Tyler to name the vetted individuals by name in the Statement of Work.

See See Section E, Paragraph 3 of the License and Services Agreement – page 8. Third Party Product Warranties. Tyler does not warrant or guarantee the performance of the Third Party Products. However, Tyler grants and passes through to the County any warranty, guarantee or indemnity that Tyler may receive from the Developer or supplier of the Third Party Products. Is the annual software maintenance based on the license price we paid or the then existing license price? If the then existing price, we are subject to increases higher than 5%. What's to prevent them from increasing the fee 5% per annum even if the cost of living is 2%.

See Exhibit B, Paragraph 1.2 of the License and Services Agreement - Invoicing and Payment Policy – page 2. The maintenance fees are based on the Tyler Software license fees, the total of which is set forth on Exhibit A of the License and Services Agreement - Investment Summary – page 2, quoted in the Investment Summary. The fees are not tied to the "then current" Tyler software license fees. The
maintenance fees are a percentage of the total Tyler Software license fees quoted in the Investment Summary, before the discounts and waivers. Maintenance for the bulk of the Tyler modules is priced at 18% of the license fees, and certain more complicated modules are priced from 20%–22% of the license fees. The total annual maintenance fees ($369,947 – which is the total maintenance fees, less OSDBA, Payroll Tax Table Update and Disaster Recovery support fees) for the Tyler Software products (excluding OSDBA and Disaster Recovery Services) are approximately 18.7% of the license fees quoted on page 2 of the Investment Summary. The fees will not increase by more than 5% per annum for the first 10 years. Thereafter, the fees will not increase by more than increases Tyler imposes on similarly situated clients. As is shown in the chart, maintenance fees for the ERP Software products and the Payroll Tax Updates for the first year are $0.00 – waived by Tyler. The fees for Year 2 (1st renewal term) do not increase over the fees set forth on page 2 of the Investment Summary ($369,947), prior to any waivers/discounts.

Are there any restrictions on use? Number of users? Affiliated organizations?

The County may use the software only for its own internal business uses. Section B, Paragraph 1, pages 3 – 4 of the License and Services Agreement. Tyler has acknowledged and agreed that the Personnel Board, EMA and the Pension Board are, for the purposes of the License and Services agreement only, considered part of the County for purposes of use of the ERP. Section B, Paragraph 6, page 4 of the License and Services Agreement. The ERP is an enterprise system, and there are no limitations on the number of users. Section B, Paragraph 1.1, page 3 of the License and Services Agreement.

Are they any performance holdbacks? And, if so, their amount, timeframes and triggering events?

Payments for all implementation services are tied to the County's acceptance and sign off on project milestones as set forth in the Invoicing and Payment Policy – Exhibit B to the License and Services Agreement and Tyler's work effort outlined in the Statement of Work (See Exhibit E to the License and Services Agreement). The final hold-back amount of 25% of the implementation fees is not due until 60 days after the County accepts the ERP for Go Live.

What are the payment terms?

Payment terms vary depending on the item being paid. All payment terms are set forth in Exhibit B of the License and Services Agreement – Invoicing and Payment Policy.

What costs will the county have in addition to those outlined in the document?

Unless the County and Tyler execute a Change Order to increase or materially change the scope of the project, the County should not incur any fees other than those set forth in the Tyler License and Services Agreement and Statement of Work and in Third Party Product documents for (1) PensionGold Software License and Services with Levi, Ray & Shoup, Inc., (2) SymPro Treasury Management Software License and Services with Emphasys Software (first year's fees are paid through Tyler and included in the Investment Summary), and (3) Adobe (first year's fees are paid through Tyler and included in the Investment Summary). The County has incurred fees to outside counsel, Maynard, Cooper & Gale, P.C., in connection with contract negotiations.

We negotiated a Not to Exceed Price with Tyler to cap the total project implementation expenses. The only items not covered by the Not to Exceed Price are reimbursable expenses (such as travel costs which are estimated in the Investment Summary but will be paid as incurred), annual maintenance expenses (which are paid every year and will continue after implementation), and increases in the scope of the project which are covered by a Change Order signed by the County and Tyler. (See Section C, Paragraph 3 of the License and Services Agreement – page 5).

What state law controls? Is arbitration required?

The Tyler agreements are governed by Alabama law, and jurisdiction and venue for disputes is in Jefferson County, Alabama. See Section I, Paragraphs 20 and 21 of the License and Services Agreement – pages 12 and 16. The Adobe software is "off the shelf software," and Adobe will not change the governing law from California unless a State has a statute making use of California law illegal. Alabama does not have such a statute. Arbitration is not required. The parties agreed to escalate all disputes to Senior Management to resolve, and if the dispute is not resolved within 30 days, either party is entitled to seek judicial relief. See Section I, Paragraph 3 of the License and Services Agreement – page 29.

Commissioner Carrington’s Statement:

“Some in the County have questioned whether or not Commissioners should be asking questions about acquisitions and contracts. As long as I’m a Commissioner, I will do my constitutional duty of being a good steward of the citizen’s money – and that requires me to ask questions. In fact, if previous Commissioners had asked questions on major acquisitions and contracts, we might not have been in the financial mess we inherited when we were sworn into office four years ago.

Thereupon the Commission Meeting was recessed.

The Commission Meeting was re-convened and adjourned without further discussions or deliberations at 1:30 p.m., Thursday, September 25, 2014.
