Jan-11-2011-3

WHEREAS, the Northern Beltline is a highway project originally planned to provide the Birmingham metropolitan region with a route to complete and connect its interstate system; and

WHEREAS, the Northern Beltline was first conceived in the 1960s and added to the Birmingham Metropolitan Area's long range transportation plan in 1981, but construction of the project has yet to begin over 40 years later; and

WHEREAS, available federal funding for construction of the Northern Beltline has been and will continue to be primarily through
the Appalachian Development Highway System (ADHS), as authorized by the U.S. Congress, and the associated federal transportation funding must be used for this project or lost to other states to complete ADHS projects outside of Alabama; and

WHEREAS, the completion of the Northern Beltline will increase cross-region accessibility, will reduce travel times and the cost of travel for the public, will improve the state and local economic base, and will provide additional markets for Birmingham and Alabama-produced goods and open new areas for development of much-needed industrial and commercial sites along the route, the current shortage of which is becoming critical and having a negative impact on new job growth in the region; and

WHEREAS, the planning and design of the Northern Beltline has and will continue to include appropriate construction and engineering practices to ensure that the region's natural resources, general environmental quality, and drinking water sources located along the proposed corridor will be minimally impacted and safeguarded for future generations; and

WHEREAS, the Northern Beltline will improve this region's air quality and the health and safety of area residents by reducing congestion and the corresponding harmful vehicle tailpipe emissions, vehicle accidents, and fatalities, and improve traffic flows, by providing an alternative route for transport of cargos that endanger transportation infrastructure and lives; and

WHEREAS, it is in the best interests of the Jefferson County Commission and the State of Alabama to complete the Northern Beltline.

NOW, THEREFORE, BE IT RESOLVED, that the Jefferson County Commission, fully supports the expeditious completion of the Northern Beltline in order to address regional transportation needs.

BE IT FURTHER RESOLVED, that a suitable copy of this resolution be delivered to Governor Bob Riley, the Director of the Alabama Department of Transportation, the Division Administrator for the Alabama Division of the Federal Highway Administration, the Chairman of the Birmingham Metropolitan Planning Organization, all members of the Alabama Congressional Delegation, and all members of the Jefferson County Legislative Delegation.

Motion was made by Commissioner Bowman seconded by Commissioner Stephens that the above resolution be adopted. Voting “Aye” Bowman, Stephens, Brown, Carrington and Knight.

Commissioner Knight met with several constituents:
Constituent objections to Northern Beltline:
1. The excessive costs
2. The Beltline is not needed
3. It will invade Cahaba River headwaters
4. It benefits large land owners
5. There has been no public hearing - portion of Old Springville Road to I-59
6. They object to the culverting the Cahaba River
7. This is not a true loop
8. I-59 corridor would be overcrowded
9. A four-lane parkway would be an acceptable alternative

I support the Northern Beltline
1. I have always supported Northern Beltline
2. I still do - we have to grow our County

Reservations:
- I-59 (7-mile strip) must be widened
- Cahaba River - must be protected
- Smart growth
- Smart planning for stormwater

Need to be forward thinking – hope we have the where with all to install our utilities (sewer/water trunks, etc) in area while the initial construction is being done.
