Commissioner Brown read the following statement:

MONITORING CONTRACT

As you all are aware, there was a request for proposals sent out to evaluate the use of contract monitors relating to our debris cleanup efforts with Ceres Environmental.

Despite the fact that Jefferson County has some of the best trained and best qualified emergency management personnel in the country, we wanted to insure that our personnel were utilized in the best possible way and that we explored all possibilities. After evaluating the cost associated with contract monitors, the amount of time remaining on the debris removal contract, compared to the outstanding job that our own monitors have done thus far to include the detection of attempts to take advantage of us through improper load tactics, it appears that it is in the best interest of the County both financially and professionally that we leave the monitoring to our own employees.

PRIVATE PROPERTY DEBRIS REMOVAL

As you all know, we met with representatives of FEMA on May 17, 2011, regarding governments entering onto private property in order to do debris removal. Although FEMA will authorize reimbursement for debris removal from private property, they take no role or responsibility when it comes to the legality or the liability associated with:

(1) The expenditure of public funds for debris removal from private property; and
(2) Any liability for damage or destruction that may be associated with any improper or questionable entry onto private property.

Further, there are very strict requirements associated with FEMA reimbursement for private property debris removal, such as whether work will be done or could be done by insurance, whether the property owner has in fact been paid by insurance companies to do debris removal, whether the person giving authority in fact has the legal authority to do so, and numerous questions that will arise regarding what constitutes debris versus demolition. Operation Clean Sweep authorizes debris removal, but not demolition. Having spoken with our County Attorneys, Building Inspectors and Roads and Transportation staff, it is imperative that we make sure that before undertaking this kind of liability and responsibility we insure that there is an appropriate process in place to establish safeguards that insure our actions are legal, that FEMA reimbursement will occur and that the County will not be subjected to liability. Members of the staff of Inspection Services and Roads and Transportation are actively collecting information to assess the need for County intervention and whether insurance and other entities are sufficiently handling the task of debris removal from private property. As soon as that assessment is made, then we will make a decision on whether to move forward or not in consultation with our attorneys.

Wayne Sullivan, Director of Roads and Transportation reported to the Commission regarding the progress of storm debris removal.

May-24-2011-404

BE IT RESOLVED BY THE JEFFERSON COUNTY COMMISSION that the President is authorized to execute the Terms of Engagement, Accounting Services Contract and Addendum to Accounting Services Contract between Jefferson County, Alabama and Warren, Averett, Kimbrough & Marino, LLC to provide auditing services for FY2010 in the amount of $650,000.

TERMS OF ENGAGEMENT
FEBRUARY 18, 2011

1 ENGAGEMENT. Warren, Averett, Kimbrough & Marino, LLC and its affiliates ("Warren Averett") are pleased to confirm our understanding of the audit services we are to provide for Jefferson County, Alabama ("the County"). This agreement confirms our understanding of the terms and objectives of our engagement and the nature and limitations of the services we will provide.

In the following sections, "we" refers to Warren Averett and "you" refers to Jefferson County, Alabama.

2 SERVICES PROVIDED: We will audit the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information, which collectively comprise the basic financial statements, of the Jefferson County Commission (the "Commission") as of and for the year ended September 30, 2010, as described in our agreement dated February 18, 2011, and provide professional services to the Commission as are requested by the Commission from time to time. Accounting standards generally accepted in the United States provide for certain required supplementary information (RSI), such as management's discussion and analysis (MD&A), to accompany the Commission's basic financial statements. As part of our engagement, we will apply certain limited procedures to the Commission's RSI. These limited procedures will consist principally of inquiries of management regarding the methods of measurement and presentation, which management is responsible for affirming to us in its representation letter. Unless we encounter problems with the presentation of the RSI or with procedures relating to it, we will disclaim an opinion on it. The following RSI is required by generally accepted accounting principles and will be subjected to certain limited procedures, but will not be audited:

32
flows in conformity with U.S. generally accepted accounting principles; and for compliance with applicable laws and regulations. The remaining fund information of the Jefferson County Commission and the respective changes in financial position and, where applicable, cash flows in conformity with U.S. generally accepted accounting principles; and for monitoring ongoing activities, to help ensure that appropriate goals and objectives are met. You are also responsible for the selection and application of accounting principles; for the fair presentation in the financial statements of the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Jefferson County Commission and the respective changes in financial position and, where applicable, cash flows in conformity with U.S. generally accepted accounting principles; and for compliance with applicable laws and regulations.

Supplementary information other than RSI also accompanies the Commission's basic financial statements. We will subject the following supplementary information to the auditing procedures applied in our audit of the basic financial statements and will provide an opinion on it in relation to the basic financial statements.

2. Combining Financial Statements

Any additional information accompanying the basic financial statements will not be subjected to the auditing procedures applied in our audit of the financial statements, and our auditors' report will disclaim an opinion on such information.

The objective of our audit is the expression of an opinion as to whether your basic financial statements are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles and to report on the fairness of the additional information referred to in the second paragraph when considered in relation to the basic financial statements taken as a whole. The objective also includes reporting on-

- Internal control related to the financial statements and compliance with laws, regulations, and the provisions of contracts or grant agreements, noncompliance with which could have a material effect on the financial statements in accordance with Government Auditing Standards.
- Internal control related to major programs and an opinion (or disclaimer of opinion) on compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a direct and material effect on each major program in accordance with the Single Audit Act Amendments of 1996 and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations.

Terms of Engagement is a standard firm document signed by all clients that ensures both the firm and the client have a clear understanding of the services to be provided and the terms and objectives of the engagement.

The reports on internal control and compliance will each include a statement that the report is intended solely for the information and use of management, the body or individuals charged with governance, others within the entity, specific legislative or regulatory bodies, federal awarding agencies, and if applicable, pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Our audit will be conducted in accordance with the U.S. generally accepted auditing standards; the standards for financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; the Single Audit Act Amendments of 1996 and the provisions of OMB Circular A-133, and will include tests of accounting records, a determination of major program(s) in accordance with OMB Circular A-133, and other procedures we consider necessary to enable us to express such opinion and to render the required reports. If our opinion on the financial statements or the Single Audit compliance opinion is other than unqualified, we will fully discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed opinions, we may decline to express opinions or to issue a report as a result of this engagement.

Management is responsible for the basic financial statements and all accompanying information as well as all representations contained therein. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of the controls. The objectives of internal control are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, that transactions are executed in accordance with management's authorizations, and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles.

Management is also responsible for preparation of the schedule of expenditures of federal awards in accordance with the requirements of OMB Circular A-133. As part of the audit, we will assist with preparation of your financial statements, schedule of expenditures of federal awards and related notes. You are responsible for making all management decisions and performing all management functions relating to the financial statements, schedule of expenditures of federal awards and related notes for accepting full responsibility for such decisions. You will be required to acknowledge in the management representation letter our assistance with preparation of the financial statements and the schedule of expenditures for federal awards and that you have reviewed and approved the financial statements, schedule of expenditures of federal awards and related notes prior to their issuance and have accepted responsibility for them. Further, you are required to designate an individual with suitable skill, knowledge or experience to oversee any nonaudit services we provide and for evaluating the adequacy and results of those services and accepting responsibility for them.

Management is responsible for establishing and maintaining effective internal control, including internal controls over compliance, and for monitoring ongoing activities, to help ensure that appropriate goals and objectives are met. You are also responsible for the selection and application of accounting principles; for the fair presentation in the financial statements of the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Jefferson County Commission and the respective changes in financial position and, where applicable, cash flows in conformity with U.S. generally accepted accounting principles; and for compliance with applicable laws and regulations.
provisions of contracts and grant agreements.

Management is also responsible for making all financial records and related information available to us and for ensuring that management and financial information is reliable and properly recorded. Your responsibilities also include identifying significant vendor relationships in which the vendor has the responsibility for program compliance and for the accuracy and completeness of that information. Management's responsibilities include adjusting the financial statements to correct material misstatements and for confirming to us in the representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud or illegal acts affecting the government involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud or illegal acts could have a material effect on the financial statements. Your responsibilities include informing us of your knowledge of any allegations of fraud or suspected fraud affecting the government received in communications from employees, former employees, grantees, regulators, or others. In addition, you are responsible for identifying and ensuring that the entity complies with applicable laws, regulations, contracts, agreements, and grants and for taking timely and appropriate steps to remedy any fraud, illegal acts, violations of contracts or grant agreements, or abuse that we may report. Additionally, as required by OMB Circular A-133, it is management's responsibility to follow up and take corrective action on reported audit findings and to prepare a summary schedule of prior audit findings and a corrective action plan. The summary schedule of prior audit findings, if applicable, should be available for our review as soon as possible.

Management is responsible for establishment and maintenance of a process for tracking the status of audit findings and recommendations. Management is also responsible for identifying for us previous financial audits, attestation engagements, performance audits or other studies related to the objectives discussed above in this letter. This responsibility includes relaying to us corrective actions taken to address significant findings and recommendations resulting from those audits, attestation engagements, performance audits, or studies. You are also responsible for providing management's views on our current findings, conclusions, and recommendations, as well as your planned corrective actions, for the report, and for the timing and format for providing that information.

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit will involve judgment about the number of transactions to be examined and the areas to be tested. We will plan and perform the audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement, whether from (i) errors, (ii) fraudulent financial reporting, (iii) misappropriation of assets, or (iv) violations of laws or governmental regulations that are attributable to the entity or to acts by management or employees acting on behalf of the entity. Because the determination of abuse is subjective, Government Auditing Standards do not expect auditors to provide reasonable assurance of detecting abuse.

Because an audit is designed to provide reasonable, but not absolute, assurance and because we will not perform a detailed examination of all transactions, there is a risk that material misstatements or noncompliance may exist and not be detected by us. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements or major programs. However, we will inform you of any material errors and any fraudulent financial reporting or misappropriation of assets that come to our attention. We will also inform you of any violations of laws or governmental regulations that come to our attention, unless clearly inconsequential. We will include such matters in the reports required for a Single Audit. Our responsibility as auditors is limited to the period covered by our audit and does not extend to later periods for which we are not engaged as auditors.

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, and may include tests of the physical existence of inventories, and direct confirmation of receivables and certain other assets and liabilities by correspondence with selected individuals, funding sources, creditors, and financial institutions. We will request written representations from your attorneys as part of the engagement, and they may bill you for responding to this inquiry. At the conclusion of our audit, we will also require certain written representations from you about the financial statements and related matters.

In planning and performing our audit, we will consider the internal control sufficient to plan the audit in order to determine the nature, timing, and extent of our auditing procedures for the purpose of expressing our opinion on the Jefferson County Commission's financial statements.

Our audit will include obtaining an understanding of the entity and its environment, including internal control, sufficient to assess the risks of material misstatement of the financial statements and to design the nature, timing, and extent of further audit procedures. Tests of controls may be performed to test the effectiveness of certain controls that we consider relevant to preventing and detecting errors and fraud that are material to the financial statements and to preventing and detecting misstatements resulting from illegal acts and other noncompliance matters that have a direct and material effect on the financial statements. Our tests, if performed, will be less in scope than would be necessary to render an opinion on internal control and, accordingly, no opinion will be expressed in our report on internal control issued pursuant to Government Auditing Standards.
As required by OMB Circular A-133, we will perform tests of controls over compliance to evaluate the effectiveness of the design and operation of controls that we consider relevant to preventing or detecting material noncompliance with compliance requirements applicable to each major federal award program. However, our tests will be less in scope than would be necessary to render an opinion on those controls and, accordingly, no opinion will be expressed in our report on internal control issued pursuant to OMB Circular A-133.

An audit is not designed to provide assurance on internal control or to identify significant deficiencies. However, during the audit, we will communicate to management and those charged with governance internal control related matters that are required to be communicated under AICPA professional standards, Government Auditing Standards, and OMB Circular A-133.

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we will perform tests of Jefferson County Commission's compliance with applicable laws and regulations and the provisions of contracts and agreements, including grant agreements. However, the objective of those procedures will not be to provide an opinion on overall compliance and we will not express such an opinion in our report on compliance issued pursuant to Government Auditing Standards.

OMB Circular A-133 requires that we also plan and perform the audit to obtain reasonable assurance about whether the auditee has complied with applicable laws and regulations and the provisions of contracts and grant agreements applicable to major programs. Our procedures will consist of test of transactions and other applicable procedures described in the OMB Circular A-133 Compliance Supplement for the types of compliance requirements that could have a direct and material effect on each of the Commission's major programs. The purpose of these procedures will be to express an opinion on the Commission's compliance with requirements applicable to each of its major programs in our report on compliance issued pursuant to OMB Circular A-133.

We may from time to time, and depending on the circumstances, use third-party service providers in serving your account. We may share confidential information about you with these service providers, but remain committed to maintaining the confidentiality and security of your information. Accordingly, we maintain internal policies, procedures, and safeguards to protect the confidentiality of your personal information. In addition, we will secure confidentiality agreements with all service providers to maintain the confidentiality of your information and we will take reasonable precautions to determine that they have appropriate procedures in place to prevent the unauthorized release of your confidential information to others. In the event that we are unable to secure an appropriate confidentiality agreement, you will be asked to provide your consent prior to the sharing of your confidential information with the third-party service provider. Furthermore, we will remain responsible for the work provided by any such third-party service providers.

We understand that your employees will prepare all cash or other confirmations we request and will locate any documents selected by us for testing in a timely manner.

At the conclusion of the engagement, we will complete the appropriate sections of the Data Collection Form that summarizes our audit findings. We will provide copies of our reports to oversight agencies, as directed by you; however, it is management's responsibility to submit the reporting package (including financial statements, schedule of expenditures of federal awards, summary schedule of prior audit findings, auditors' reports, and corrective action plan) along with the Data Collection Form to the federal clearinghouse. We will coordinate with you the electronic submission and certification. If applicable, we will provide copies of our report for you to include with the reporting package you will submit to pass-through entities. The Data Collection Form and the reporting package must be submitted within the earlier of 30 days after receipt of the auditors' reports or nine months after the end of the audit period, unless a longer period is agreed to in advance by the cognizant or oversight agency for audits.

The audit documentation for this engagement is the property of Warren Averett and constitutes confidential information. However, pursuant to authority given by law or regulation, we may be requested to make certain audit documentation available to the State of Alabama Department of Examiners of Public Accounts, certain cognizant or oversight agencies, or a designee, a federal agency providing direct or indirect funding, or the U.S. Government Accountability Office for purposes of a quality review of the audit, to resolve audit findings, or to carry out oversight responsibilities. We will notify you of any such request. If requested, access to such audit documentation will be provided under the supervision of Warren Averett personnel and you will be billed for this at our standard hourly rates. Furthermore, upon request, we may provide copies of selected audit documentation to the aforementioned parties. These parties may intend, or decide, to distribute the copies or information contained therein to others, including other governmental agencies.

The audit documentation for this engagement will be retained for a minimum of five years after the report release date or for any additional period requested by the State of Alabama Department of Examiners of Public Accounts or your cognizant agency or oversight agency. If we are aware that the State of Alabama Department of Examiners of Public Accounts, a federal awarding agency, pass-through entity, or auditee is contesting an audit finding, we will contact the party(ies) contesting the audit finding for guidance prior to destroying the audit documentation.

Government Auditing Standards require that we provide you with a copy of our most recent external peer review report and any letter of comment, and any subsequent peer review reports and letters of comment received during the period of the contract. Our 2007 peer review report was provided to you as part of our proposal for the engagement. There was no letter of comment. Our 2010 peer review report is attached. There was no letter of comment.

us to express such opinions. If our opinion is other than unqualified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audits or are unable to form or have not formed an opinion, we may decline to express an opinion or to issue a report as a result of this engagement. Our procedures will include tests of the documentary evidence supporting the transactions recorded in the accounts, and direct confirmation of receivables and certain other assets and liabilities by correspondence with selected customers, creditors, and banks. We will request written representations from your attorneys as part of the engagement. At the conclusion of our audit, we will require certain written representations from you about the financial statements and related matters.

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audits will involve judgment about the number of transactions to be examined and the areas to be tested. Also, we will plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. Because an audit is designed to provide reasonable, but not absolute, assurance and because we will not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by us. In addition, an audit is not designed to detect errors, fraud, or other illegal acts that are immaterial to the financial statements. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements. However, we will inform you of any material errors that come to our attention, and we will inform you of any fraudulent financial reporting or misappropriation of assets that come to our attention. We will also inform you of any violations of laws or governmental regulations that come to our attention, unless clearly inconsequential. Our responsibility as auditors is limited to the period covered by our audit and does not extend to any later periods for which we are not engaged as auditors.

Our audits will include obtaining an understanding of internal control sufficient to plan the audit and to determine the nature, timing, and extent of audit procedures to be performed. An audit is not designed to provide assurance on internal control or to identify deficiencies in internal control. However, during the audit, we will communicate to you internal control related matters that are required to be communicated under professional standards. You are responsible for establishing and maintaining internal controls, including monitoring ongoing activities; for the selection and application of accounting principles; and for the fair presentation in the financial statements of financial position, results of operations, and cash flows in conformity with U.S. generally accepted accounting principles. You are also responsible for management decisions and functions; for designating an individual with suitable skill, knowledge, or experience to oversee any other nonattest services we provide; and for evaluating the adequacy and results of those services and accepting responsibility for them.

You are responsible for making all financial records and related information available to us and for the accuracy and completeness of that information. Your responsibilities include adjusting the financial statements to correct material misstatements and confirming to us in the management representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole. Management is responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud affecting the County involving management, employees who have significant roles in internal control, and others where the fraud could have a material effect on the financial statements. Management is also responsible for informing us of your knowledge of any allegations of fraud or suspected fraud affecting the entity received in communications from employees, former employees, regulators or others. Management is also responsible for identifying and ensuring that the entity complies with applicable laws and regulations.

We understand that your employees will prepare all cash, accounts receivable, and other confirmations we request and will locate any documents selected by us for testing in a timely manner.

3. REQUESTS FOR ASSISTANCE: With regard to the audit of the financial statements of the Commission for the year ended September 30, 2010, we will request assistance from County employees on a regular basis to provide supporting documentation, analyses, and other explanations or support for accounting entries or account balances. All such requests will be documented by us with reasonable response dates assigned. Such open request lists will be reviewed periodically (at least weekly) with the Chief Financial Officer and Assistant Finance Director. Complete, accurate, and timely responses to all of our requests for assistance have a direct effect on our ability to complete the audit within timelines stated in this document. We will notify the Chief Financial Officer, Assistant Finance Director, and the Chairperson of the Commission's Finance Committee, in writing, at any point in time when the failure of County employees to provide complete, accurate, and timely responses to our requests for assistance will delay our expected completion date per section 4 of this addendum. Such communication may result in Documented Delays as defined in Section 4.

4. COMPLETION OF FINANCIAL STATEMENT AUDIT: With regard to the financial statement audit for the year ended September 30, 2010, per section 2.a. of the Accounting Services Contract, we will document our expected date to commence audit procedures once the compilation of the September 30, 2010 financial statements is complete. The expected completion date to provide a draft of the audited September 30, 2010 financial statements is the end of the 20 weeks following our audit commencement date (excluding holiday weeks). Any delays in our commencement date would extend our completion date, accordingly.

Documented Commencement Date is the date recorded on the Commencement Date form and signed by an authorized representative of both parties. Documented Delays are delays that are either a) caused by County personnel or b) due to circumstances beyond the control
of the Firm or the County, including written notifications to the CFO as described in section 3 of the addendum. Such documented delays shall be reported on a Documented Delay form and signed by an authorized representative of both parties.

5. DETECTION: This engagement will not include any procedures designed to detect theft or illegal acts that are immaterial to the financial statements, and the County agrees that we will have no responsibility to do so. However, if, during the ordinary course of the audit, such acts are in fact detected, they will be reported to appropriate County personnel upon discovery.

6. FEES: Our fees for these services are outlined in the accompanying accounting services contract. If unusual circumstances or transactions are encountered outside the scope of the audit, we will discuss them with you in advance and agree on any additional fees before we incur any time. Other requested services will generally be billed at our standard per diem rates in effect at the time the services are performed.

7. BILLING: Billing terms are outlined in the accompanying accounting services contract. Invoices are due within 30 days of the invoice date. In the event that payment is not received within 45 days of the due date, the County will be assessed interest charges of 1.0 percent per month on the unpaid balance. We reserve the right to suspend or terminate our work due to nonpayment. In the event that our work is suspended or terminated as a result of nonpayment, the County agrees that we will not be responsible for the County's failure to meet government and other filing deadlines, or for penalties or interest that may be assessed against the County resulting from the County's failure to meet such deadlines.

8. LEGAL FEES: In addition to the fees for services described in this agreement, the County agrees to pay legal fees incurred by Warren Averett in responding to any third-party request for production and/or subpoenas related to your records and our work done for you in connection with an engagement thereon. However, in no event, shall the County be responsible for fees incurred by Warren Averett in defense of its own work.

9. LIABILITY: Warren Averett's maximum liability to the County for any reason shall be limited to the fees paid by the County for the services or work product giving rise to the liability except and to the extent finally determined to have resulted from our gross negligence or our willful misconduct.

10. INDEMNITY: The County agrees to release, defend, indemnify and hold Warren Averett and its members, managers, officers and employees and the respective heirs, executors, personal representatives, successors, and assigns of each of them harmless from any and all claims which arise from knowing misrepresentations to Warren Averett by the County.

11. ALTERNATIVE DISPUTE RESOLUTION: By signing this agreement, both parties agree to submit to mediation at the option of either party for the resolution of any disputes or claims.

12. INVALIDATION: In the event that any portion of this agreement is deemed invalid or unenforceable, said finding shall not operate to invalidate the remainder of this agreement.

13. Governing Law/Dispute Resolution: The parties agree that this contract is made and entered into in Jefferson County, Alabama and that all services, materials and equipment to be rendered pursuant to said Agreement are to be delivered in Jefferson County, Alabama. The interpretation and enforcement of this Agreement will be governed by the laws of the State of Alabama, without giving effect to the conflict of laws rules thereof. The parties agree that jurisdiction and venue over all disputes arising under this Agreement shall be in the Circuit Court of Jefferson County Alabama, Birmingham Division.
