Motion was made by Commissioner Brown seconded by Commissioner Stephens that the above resolution be adopted. Voting “Aye” Brown, Stephens, Bowman, Carrington and Knight.
BE IT RESOLVED BY THE JEFFERSON COUNTY COMMISSION that the President is authorized to execute the following agreement between Jefferson County, Alabama and Hazen & Sawyer, P.C. in the amount of $867,000.00 to provide professional engineering services for the Jefferson County Valley Creek Wastewater Treatment Plant energy and process optimization improvements-design.

AGREEMENT TO PROVIDE
PROFESSIONAL ENGINEERING SERVICES FOR
Jefferson County Environmental Services Department
Valley Creek Wastewater Treatment Plant
Energy and Process Optimization Improvements Project

This AGREEMENT, made this the __________ day of ______, 2012, by and between Jefferson COUNTY, in the State of Alabama as Party of the First Part, hereinafter referred to as the COUNTY, and Hazen and Sawyer, P.C. (CONSULTANT) as Party of the Second Part, hereinafter referred to as the CONSULTANT.

WHEREAS, the said CONSULTANT has agreed and by these presents does agree with the COUNTY for the consideration hereinafter mentioned with payment to be administered by the COUNTY to accomplish the analysis and reporting for the Valley Creek Wastewater Treatment Plant – Energy and Process Optimization Improvements Project as outlined in the Scope of Work.

NOW, THEREFORE, for and in consideration of the mutual covenants hereinafter stipulated to be kept and performed, it is agreed between the parties as follows:

ARTICLE I – SCOPE OF WORK

The CONSULTANT, in the accomplishment of work under this AGREEMENT shall meet the requirements for conformance with the standards adopted by the COUNTY and ascertain the written practices of the Jefferson County Environmental Services Department prior to beginning any work on this project.

This project consists of the design and bidding of improvements at the Valley Creek Wastewater Treatment Plant. A preliminary engineering report entitled, "Valley Creek Wastewater Treatment Plant – Energy and Plant Optimization Study" has been prepared by CONSULTANT under a previous contract. The report consists of a series of technical memoranda which outline recommended repairs, modifications, changes in operations, and improvements to the Valley Creek WWTP which are anticipated to lower operational costs through improvements to automation, digester performance, digester gas utilization, energy management, and optimized operations. CONSULTANT will utilize the above referenced report to develop contract documents for an improvements project for the treatment facility.

CONSULTANT will also perform the following tasks to be incorporated into the final design documents that CONSULTANT is preparing for the Village Creek WWTP – Waste Gas Energy Recovery and Process Optimization Improvements Project under a separate contract:

- Troubleshoot issues related to the Village Creek Wastewater Treatment Plant's dewatering building and include narrative descriptions and relevant details of recommended remedies.
- Design a new digester gas piping system to replace the existing, aged piping system that cannot reliably provide digester gas to the new boilers due to deterioration and because of condensate accumulating in the piping preventing gas flow.
- Revise contract documents to remove new primary scum pumping system from the design and rehabilitate existing system's valves and controls to automate scum removal.
- Design the replacement of two existing single phase transformers with new three phase transformers as the existing transformers are having significant problems with arcing and tracking on the wires connecting the transformers.

In addition to the detailed design services described above for the Valley Creek WWTP and the Village Creek WWTP, CONSULTANT will provide two, one-day training workshops geared towards process control and process optimization for the OWNER's operations staff. In preparation for each training session, CONSULTANT will visit the Five Mile Creek, Leeds, Prades, Turkey Creek, and Warrior WWTPs and discuss operations and process control with each plant's operator. CONSULTANT will perform a cursory review of each plant's operating data, calculate each plant's theoretical power demand, compare the theoretical power demand to actual demand, and provide general optimization recommendations based on observations and simplified data analyses. Each day's training session will be geared towards plant type (conventional plug flow or oxidation ditch).

Engineering services performed during construction and startup services for the improvements at Valley Creek WWTP are not included in this proposal. It is anticipated that these services may be negotiated and awarded under a future amendment to this contract or under a future separate contract.

It is assumed that the final design for the Valley Creek WWTP Energy and Plant Optimization Improvements Project will include the following improvements (organized by process area) in a single construction project.
Preliminary Treatment

- Install new gates in the existing headworks to isolate channels.
- Coordinate scope of work with grit system manufacturer to improve grit removal efficiencies.

Primary Treatment

- Improve automation and control of primary sludge pumping.

Secondary Treatment

- Utilize the plant control system to adjust gates to pre-determined setpoints such that an approximate 50/50 split is achieved between the first and second stage aeration basins during normal dry weather flow conditions.
- Modify Stage One influent piping to eliminate step feed and achieve plug flow of the primary effluent.
- Increase the hydraulic capacity of the Stage 2 effluent flume by connecting Stage 2's existing effluent flume with the abandoned effluent channel adjacent to Aeration Basin 10 and installing a new junction box and connecting piping to secondary clarifiers.
- Modify programming in the existing blower control panel PLC to control header valves to use a dissolved oxygen strategy in which the controlling PLC makes small changes in valve positions and waits for the system to stabilize before making another small change in valve position to meet DO setpoint in the basins.
- Replace the existing motor-actuated basin air header control valves with smaller butterfly valves to improve airflow control.
- Modify programming for blower output to be based on pressure setpoint range for the expected range of airflows.
- Improve communication of measured and operating parameters for blower control PLC to the SCADA system.
- Reduce number of diffusers in each aeration basin by creating a tapered aeration pattern.
- Install new TSS online analyzers for improved SRT control.

Solids Handling - Thickening

- Modify piping to gravity thickeners to enable separated feed stocks for PS and WAS. Blend thickened sludges in the piping to the digesters. Allocate at least one gravity thickener for primary sludge-only thickening and two gravity thickeners for secondary sludge-only thickening.

Solids Handling - Digestion

- Assist OWNER with pre- and post-construction development and implementation of sampling programs to demonstrate compliance with 40 CFR 502 requirements for designation as "Class B" sludge with the objective of eliminating the need for alkaline stabilization of the dewatered cake.
- Replace existing digester mixing system with a robust, pumped mixing system to help minimize grit accumulation and increase active volume in the digesters and increase digester solids reduction performance.
- Install motorized plug valves on the feed lines to each digester and new magnetic flow meters on the PS and TWAS feeds to provide both automation and enhanced process control capabilities for anaerobic digester operations.
- Install a secondary hot water loop pump, three-way temperature control valves, and a circuit setter on the secondary hot water loops at each of the sludge heat exchangers to improve digester heating control and provide independent heating control capability for each anaerobic digester.
- Utilize digester gas for generating hot water for digester process heating demands. Note - New dual fuel, digester gas/natural gas burners in the two existing boilers are being installed as part of ongoing Contract 8 Project.
- Eliminate the boiler loop and pump, intermediate loop and pump, and thermostat to decrease power consumption in the boiler building and simplify hot water piping.
- Install manual air relief valves on discharge piping from the transfer pumps from the anaerobic digesters to the dewatering building to allow release of accumulated gases in the line and improve digested sludge transfer.

1. Conferences outlined in the scope of work will be held at the reasonable request of either the COUNTY or the CONSULTANT to discuss matters pertinent to any phase of the project. CONSULTANT will be entitled to additional compensation for any conferences requested by the COUNTY beyond those outlined in the scope of work in Section 2.

2. Requests for visits to the site may be made by the COUNTY or the CONSULTANT in conjunction with any other party or parties.

ARTICLE II – TIME OF BEGINNING AND COMPLETION

A. The CONSULTANT agrees to start work on the professional services outlined under Article I of this AGREEMENT within ten (10) days after receipt of written notice from the COUNTY to proceed. The COUNTY will not notify the CONSULTANT to commence work until this AGREEMENT has been formally approved by both parties.

B. The work to be performed shall be completed in accordance with the following schedule: As described in Exhibit C – Schedule. Should delays attributable to causes beyond the control of the CONSULTANT be encountered, such as would extend the contract work beyond the agreed upon three hundred day period, the COUNTY may adjust the amount of this contract by amendment, so as to reflect the cost of additional expense items and additional fee, if any, arising from the change.

C. In case the COUNTY deems it advisable or necessary in the execution of the work to make any alteration which will increase or decrease the scope of work outlined in this AGREEMENT, the time limits specified herein may be adjusted in accordance with Article IV, Section 1.

D. The Contract shall remain in full effect until completion of the Scope of Work and acceptance of final payment by the CONSULTANT, up to the maximum term allowed by law.
ARTICLE III – PAYMENT

SECTION 1 – FEE

For services performed by the CONSULTANT under this AGREEMENT, and as full and complete compensation therefore, including all expenditures made and all expenses incurred by the CONSULTANT in connection with this AGREEMENT, except as otherwise provided herein, and subject to and in conformity with all provisions of this AGREEMENT, the COUNTY will pay the CONSULTANT as follows:

For the work contemplated under Article I, Section 1, compensation shall be computed on the basis of a Cost Not to Exceed contract to be paid by monthly invoice at the schedule of standard charges attached as Exhibit A. The contract shall include a maximum engineering cost of eight hundred sixty-seven thousand and 00/100 dollars ($867,000.00). This contract amount shall not be exceeded except by formal amendment to this agreement.

The above represents the CONSULTANT's best estimate of anticipated hours and costs to perform this contract. Actual project time will be determined at a later date, which could decrease the above contract amount. Payment shall be made, not more often than once monthly, in amounts evidenced by the submittal of vouchers and invoices by the CONSULTANT to the COUNTY and along with other evidence of performance as the COUNTY may deem necessary. The COUNTY shall pay the CONSULTANT within ten (10) days of receipt of the CONSULTANT's payment request by the COUNTY Finance Department.

SECTION 2 – FINAL ACCEPTANCE

The acceptance by the CONSULTANT of the final payment shall constitute and operate as a release to the COUNTY for all claims and liability to the CONSULTANT, his representative and assigns for all things done, furnished or relating to the service rendered by the CONSULTANT under or in connection with this AGREEMENT or any part thereof provided that no unpaid invoice exists because of extra work required at the request of the COUNTY.

ARTICLE IV – MISCELLANEOUS PROVISIONS

SECTION 1 – CHANGES OF WORK

If, during the term of this AGREEMENT, additional services are required of the CONSULTANT other than those specified above or major changes in the work become necessary or desirable, the COUNTY may order, in writing, the CONSULTANT to perform such services or make such changes. If the CONSULTANT is of the opinion that the work he has been directed to perform is beyond the scope of this AGREEMENT and constitutes extra work, the CONSULTANT will, within ten (10) days, notify the COUNTY in writing and receive approval from the COUNTY prior to performing such work. In the event the COUNTY determines that such work does constitute extra work, additional time for completion of contract may be granted and payment for the additional work shall be negotiated by Supplemental Agreement prior to work being undertaken by the CONSULTANT. Likewise, during the term of this AGREEMENT, any service specified may be deleted and/or reduced at the discretion of the COUNTY. If such deletion or reduction becomes desirable, the CONSULTANT will be given advance notice and an equitable reduction in the CONSULTANT's fee or cost ceiling will be made on a proportionate basis.

SECTION 2 – OWNERSHIP OF ENGINEERING DOCUMENTS

Upon completion of the work covered by this AGREEMENT, the CONSULTANT shall make available to the COUNTY all documents and data pertaining to the work or to the project, which material shall become the property of the COUNTY. All original tracings or maps and other engineering data furnished to the COUNTY by the CONSULTANT shall bear thereon the endorsement of the CONSULTANT.

SECTION 3 – CONSULTANT'S ENDORSEMENT

The CONSULTANT shall endorse the original title or cover sheet of all reports and engineering data required to be furnished by him under the terms of this AGREEMENT. All endorsements shall contain the seal and original signature of an Alabama licensed professional engineer who is a bona fide employee of the CONSULTANT. The original title or cover sheet shall also contain a statement that all surveying was completed in accordance with the requirements of the minimum technical standards for the practice of land surveying in the state of Alabama. The statement shall be signed by a registered land surveyor with his/her Alabama Registration Number duly affixed.

SECTION 4 - DELAYS AND EXTENSIONS

1. In the event that unavoidable delays prevent completion of the services to be performed under this AGREEMENT in the time specified in Article II - Time of Beginning and Completion, the COUNTY may grant a time extension to any or all phases of the work, provided written application is made by the CONSULTANT within ten (10) working days after the alleged delay has occurred.

2. In the event that delays are deemed avoidable by the COUNTY and time extensions are not granted, the CONSULTANT may be subjected to a liquidated damages charge of $100.00 per day for each calendar day exceeding the time specified in Article II.

SECTION 5 – TERMINATION OR ABANDONMENT

1. The COUNTY shall have the right to abandon this AGREEMENT or to amend the AGREEMENT at any time, and such action shall, in no event, be deemed a breach of contract.

2. The COUNTY has the right to terminate this AGREEMENT at its sole discretion upon ten (10) days written notice to the CONSULTANT and make settlement with the CONSULTANT upon an equitable basis in accordance with the following. In determining
the final compensation to the CONSULTANT, the COUNTY shall apply the following:

A. No consideration will be given to profit which the CONSULTANT might have made on the uncompleted portion of the work.

B. If the AGREEMENT provides for a lump sum amount, final compensation to the CONSULTANT shall be determined by the COUNTY establishing the percent of satisfactory work performed by the CONSULTANT prior to the termination of the AGREEMENT multiplied by the contract amount, less any payments previously made.

C. If the AGREEMENT does not provide a lump sum amount, final compensation to the CONSULTANT shall be determined by the COUNTY confirming all reimbursable cost incurred for satisfactory work performed by the CONSULTANT prior to the termination of the AGREEMENT, less any payments previously made.

SECTION 6 – TERMINATION OF CONTRACT FOR BREACH

A. The Contract may be terminated by the COUNTY for CONSULTANT's breach of any substantive provision of the Contract including, but not limited to, any of the following reasons:

1. Substantial evidence and belief that the progress being made by the CONSULTANT is insufficient to complete the Work within the specified time.

2. Deliberate failure on the part of the CONSULTANT to proceed with the Work when so instructed by the COUNTY or to observe any requirement of these Specifications.

3. Failure on the part of the CONSULTANT to promptly make good any defects in the work that may be called to his attention by the COUNTY.

4. In case the CONSULTANT becomes insolvent or is declared bankrupt, or allows any final legal judgment to stand against him unsatisfied, or shall make an assignment for the benefit of his creditors.

B. Before the Contract is terminated, the CONSULTANT will first be notified in writing by the COUNTY of the conditions which make termination of the Contract imminent. Fifteen (15) days after notice is given, if no effective effort has been made by the CONSULTANT to correct the conditions for which complaint is made, the COUNTY may declare the Contract terminated and will notify the CONSULTANT accordingly.

C. Upon receipt of notice from the COUNTY that the Contract has been terminated, the CONSULTANT shall immediately discontinue all operations, safely secure all items of the Work, and remove his equipment. The COUNTY may then proceed with completion of the Work in any lawful manner that it may elect, until it is finally completed. When thus finally completed, the total cost of the Work (including all previous payments made to the CONSULTANT) will be computed and if this total cost is greater than the Contract price, the difference shall be paid to the COUNTY by the CONSULTANT.

SECTION 7 – CONTROVERSY

In any controversy concerning a question of fact in connection with the work covered by this AGREEMENT, or compensation therefore, the decision of the Director of Environmental Services in the matter shall be final and conclusive for both parties.

SECTION 8 – RESPONSIBILITY FOR CLAIMS AND LIABILITY

1. The CONSULTANT shall be responsible for all damage to life and property due to its activities and that of its subcontractors, agents or employees in connection with its services under this AGREEMENT. The CONSULTANT specifically agrees that its subcontractors, agents or employees shall possess the experience, knowledge and character necessary to qualify them individually for the particular duties they perform.

2. The CONSULTANT agrees to indemnify, hold harmless and defend the COUNTY, its elected officials, officers and employees (hereinafter referred to in this paragraph collectively as "COUNTY"), from and against any and all loss, expense against or imposed upon COUNTY because of bodily injury, death or property damage, real or personal, including loss of use thereof arising out of or as a consequence of breach of any duty or obligation of the CONSULTANT included in this AGREEMENT, negligent acts, errors or omissions including engineering design even though such injuries or death or damage to property is claimed to be due to the negligent acts, errors or omissions of the CONSULTANT, his subcontractors, the Contractor, his subcontractor, the COUNTY, its elected officials, officers or employees. Nothing contained in this paragraph should be construed to obligate CONSULTANT to indemnify the COUNTY for its own negligence, the negligence of its contractors or subcontractors or others.

3. The CONSULTANT, without extra compensation, shall carry insurance of the kinds in amounts set out below. All insurance shall be by companies authorized to do business in Alabama involving those types of insurance. Also, the CONSULTANT shall notify the COUNTY within 30 days about any present or future claims that could affect their policy limits. The foregoing Indemnity Agreement shall not be limited by reason of any insurance coverage provided.

SECTION 9 - GENERAL COMPLIANCE WITH LAWS

The CONSULTANT shall comply with the provisions of the Labor Law, all State Laws, Federal and Local Statutes, Ordinances and Regulations that are applicable to the performance of this AGREEMENT, and especially laws, ordinances and statutes prohibiting discrimination in employment of persons on account of race, creed, color, sex, national origin, or disability and all applicable provisions of Title 6, Code of Federal Regulations, and procure all necessary licenses and permits.

SECTION 10 - SUBLETTING, ASSIGNMENT OR TRANSFER

There shall be no subletting, assignment or transfer of the interests of the CONSULTANT in any of the work covered by this AGREEMENT without written consent of the COUNTY. In the event the COUNTY gives such consent, the terms and conditions of this AGREEMENT shall apply to and bind the party or parties to whom such work is consigned, subject or transferred as fully and completely as the CONSULTANT is hereby bound and obligated.

SECTION 11 - EMPLOYMENT OF COUNTY WORKERS

1. The CONSULTANT shall not engage, on full or part time or other basis during the period of the AGREEMENT, any professional or technical personnel who are or have been at any time during the period of this AGREEMENT in the employ of the COUNTY, except regularly retired employees, without written consent of the public employer of such person.

2. The CONSULTANT warrants that he has not employed or retained any company, or person other than a bona fide employee working solely for the CONSULTANT, to solicit or secure this AGREEMENT, and that he has not paid or agreed to pay any company or person, other than a bona fide employee working solely for the CONSULTANT, any fee, commission, percentage brokerage fee, gifts or any other consideration contingent upon or resulting from the award or making of this AGREEMENT. For breach or violation of this warranty, the COUNTY shall have the right to annul this contract without liability or, at its discretion, deduct from the contract price or consideration or otherwise recover the full amount of such fee, commission, percentage brokerage fee, gifts or contingent fee.

3. No COUNTY official, employee of the COUNTY, shall be admitted to any share or part of this AGREEMENT, or to any benefit that may arise therefrom, except the use of the facility being designed as enjoyed by the general public.

SECTION 12 – CONTROL

All work by the CONSULTANT shall be done in a manner satisfactory to the COUNTY and in accordance with the established policies, practices and procedures of the COUNTY.

SECTION 13 - CONDITIONS AFFECTING WORK

1. The CONSULTANT shall be responsible for having taken steps reasonably necessary to ascertain the nature, location, scope and type of work hereunder and the general and local conditions which can affect the work or the cost hereof. Any failure by the CONSULTANT to do so will not relieve him from responsibility for successfully performing the work without additional expense to the COUNTY. The COUNTY assumes no responsibility for any understanding or representation by any of its officials or agents prior to the execution of this AGREEMENT, unless such understandings or representation by the COUNTY are expressly stated herein. The CONSULTANT and subcontractor shall maintain all books, documents, papers, accounting records and other evidences pertaining to costs incurred for this project, and to make such material available at their respective offices at all times during the contract period and for three (3) years from the date of final payment of the COUNTY funds under the terms of the contract, for inspection by the COUNTY, or any authorized representative of the COUNTY government, and copies thereof shall be furnished if requested.

2. During the performance of this contract, the CONSULTANT or itself, its assignees and successors in interest, agree as follows:
   A.    C. Sanctions of Noncompliance: In the event of the CONSULTANT’S noncompliance with the nondiscrimination provisions of this contract, the COUNTY shall impose such contract sanctions as it may determine to be appropriate, including, but not limited to:
