The Commission met in Work Session on Tuesday, December 6, 2016, and approved the following items to be placed on the December 7, 2016, Regular Commission Meeting Agenda:

Commissioner George Bowman, Health and General Services Committee Item 1-10.  
Commissioner Sandra Little Brown, Human-Community Development and Human Resource Services Committee items 1-5.  
Commissioner Jimmie Stephens, Administrative, Public Works and Infrastructure Committee Items 1-18.  
Commissioner Joe Knight, Judicial Administration, Emergency Management and Land Planning Committee had items 1–6.  

Commissioner Sandra Little Brown read the following statement during the Committee Meeting Work Sessions:

Good morning Commissioners. I am sure that you are aware of the Walmart incident recently involving a black woman who was brutally handled and falsely accused of snatching a shopper’s purse by Homewood Police, which was reported by Al. com, after only hearing that the perpetrator of the purse snatching was a black female and wore a black coat. Ultimately they found out their victim was not the perpetrator of the purse snatching, even according to the victim of the purse snatching herself. To have seen social media’s take on this incident one could easily see this as another aggressive invalid attack on a citizen, who happened to have been black and a lady, minus any fairness or justice. Several citizens visited my office on yesterday calling for fairness and justice in the community as it relates to this issue. I think it is important for this issue to be resolved with utmost speed and transparency. To facilitate this I have requested a meeting with the Mayor of Homewood. At this meeting I would only be looking for an accurate account of the incident.
Based on what I observed in the video, the officer/officer’s handling of this incident was very careless. The video was very disturbing to me to see, a citizen being handled like she was, for no just cause. This issue needs to be addressed by the Homewood Police Department and corrected. Whether it be, sensitivity training, or some other form of training, as to how to handle situations like this, something must be done. It is my opinion that the police made a bad decision in this incident, which does not necessarily mean they are bad, but in this incident, at a minimum, the decision was not good.

I respectfully request you, my colleagues, to accompany me in search for an answer to why such disrespect for our citizens can occur.

A Public Hearing was held to receive comments on the following Liquor and Zoning Case applicants. There being no comments, the Commission took the following action.

A final audit will be made of all Project records after completion of the Project and a copy will be furnished to the Department of Examiners of Public Accounts, in accordance with Act 1994, No. 94-414. A final financial settlement will be made between the parties as reflected by the audit and this Agreement.

Code § 11-93-2 (1975), the COUNTY shall indemnify and hold harmless the State of Alabama, The Alabama Department of Transportation, its officers, officials, agents, servants, and employees. For all claims not subject to Ala. By entering into this Agreement, the COUNTY is not an agent of the STATE, its officers, employees, agents or assigns. The COUNTY is an independent entity from the STATE and nothing in this Agreement creates an agency relationship between the parties.

Furthermore, a contracting party found to be in violation of this provision shall be deemed in breach of the Agreement and shall be responsible for all damages resulting therefrom.

All P.C.'s, P T.' s, P.O.T.' s and other critical points necessary to reestablish the project centerline will be set and referenced with capped irons labeled with appropriate station by the CONSULTANT. A minimum of one bronze disc monument will be set in each interchange quadrant as permanent project control reference points. A reference diagram with angles and distances will be shown as a part of the field map for each point referenced.

B-2 Topographic data will be obtained by the CONSULTANT by measuring X, Y, and Z coordinates of each point necessary to define underground tanks, pipes, culverts, cover, and culture. Septic tanks and other underground tanks will be shown on parcels where right-of-way is required. Topographic data is not required outside the right-of-way except on property parcels affected by right-of-way acquisition.
