

# Jefferson County Sewer Improvement Project Meeting

**Jefferson County Environmental Services** will have a series of public engagement meetings to provide overviews of upcoming sewer overflow mitigation projects. These projects will take place across the county and involve the rehabilitation of over 300,000 feet of existing sewer mains and service lines. It also includes the replacement of more than 6,000 feet of force main piping and the elimination of a pump station through the upgrading of the sewer pipe. Each meeting will start at 6 p.m. with a short presentation on the construction impacts in the area, then we will answer questions about the work.

Anyone not able to attend the meeting can review the project information at the Jefferson County Environmental Services Office during normal business hours (8 a.m. – 4 p.m.) at 716 Richard Arrington, Jr. Blvd N, Suite A-300, Birmingham, AL 35203.
