State

Zip

Applicant must complete information regarding the attached questionnaire items 1 thru 10 with this form.

The Jefferson County Environmental Services Department reserves the right to reject any Pre-qualification Application which is not responsive or considered to be in the best interest of the County. Responsiveness of the applicant will be determined by the completeness and regularity of the Pre-qualification Application. Incomplete applications will delay consideration of applicants desiring to pre-qualify. Pre-qualification of a contractor does not imply that any bid submitted by a pre-qualified contractor automatically qualifies as a "competitive", "responsible", or "satisfactory" bid.

Pre-qualification applications must be mailed to the following address:
(Applications submitted by FAX will not be accepted)

Jefferson County Environmental Services Department
716 Richard Arrington Jr. Blvd North, A-300
Birmingham, AL 35203
ATTN: Daniel White, P.E.
Phone: (205) 214-8610

Jefferson County Environmental Services

SUMMARY OF PRE-QUALIFICATION CATEGORIES AND CLASSIFICATIONS

The Jefferson County Environmental Services Department will designate the pre-qualification required for each project according to the nature of the work including, but not limited to environmental sensitivity, construction difficulty, right-of-way requirements, as well as criteria stated below.

Sewer Line Category - Pre-qualification in this category permits a contractor to bid on sewer line projects only according to the following classifications:

Class A - 8" thru 12" Diameter

Projects identified in this category may contain large diameter sanitary sewer pipe (i.e. 18"), but primarily will be 8" thru 12"

Class B - 8" thru 36" Diameter

Projects identified in this category may contain larger diameter sanitary sewer pipe (i.e. 42" or 48"), but primarily will be 8" thru 36".

Class C - 8" thru 120" Diameter or Larger

Wastewater Treatment Plant & Facilities Category - Pre-qualification in this category permits a contractor to bid on various wastewater treatment plant and facilities only (i.e. not sewer line projects) according to the following classifications:

CLASS D-1 - Small, Pre-cast Pumping Stations & Related Facilities

Projects identified in this classification generally include pre-fabricated pump stations. Contractors pre-qualified under this classification cannot bid on projects requiring CLASS D, CLASS E, CLASS F OR CLASS G pre-qualification.

CLASS D - Pump Stations & Package Plants

Projects identified in this classification generally include package treatment plants and small cast-in place pump stations. Contractors pre-qualified under this classification may also bid on projects classified as CLASS D-1.

CLASS E - Small Wastewater Treatment Plant & Facilities Under \$5 Million

Projects identified in this classification generally include small wastewater treatment plant modifications or expansions with the construction of cast-in-place concrete water-bearing unit processes such as headworks, clarifiers, aeration basins, and digesters. Other components of the construction of work include the installation of process equipment and yard piping. Some cast-in-place concrete pump stations or other miscellaneous facilities may be included in this classification. Projects identified in this classification will generally be estimated to cost under \$5 million. Contractors pre-qualified under this classification cannot bid on projects requiring CLASS F pre-qualification status but may bid on CLASS D-1, CLASS D, AND CLASS G work.

CLASS F - Large Wastewater Treatment Plant & Facilities

Projects identified in this classification generally include large wastewater treatment plant modifications or expansions with construction of cast-in-place concrete water-bearing unit processes such as headworks, clarifiers, aeration basins, and digesters. Other components of the construction of work include installation process equipment and yard piping. Projects identified in this classification will generally be estimated to cost above \$5 million. Contractors pre-qualified under this classification may bid on all Wastewater Treatment Plant & Facilities Category projects.

CLASS G - Non Water-Bearing Facilities

Projects identified in this classification exclude the construction of concrete water-bearing wastewater treatment unit processes and generally consist of the construction of wastewater-related maintenance facilities, environmental laboratory facilities, and other special projects not generally conforming to Class E or Class F type construction. Contractors pre-qualified under this classification may ONLY bid on projects designated as CLASS G.

Jefferson County Environmental Services Department Pre-Qualification Questionnaire

1. List firm's Headquarters and any other offices that are located in the state of Alabama as follows:
Name:
Address:
Telephone:
Fax:
2. List jurisdiction, trade categories, and corresponding license numbers in which your organization is legally qualified to do business.
3. Attach a list of all construction projects performed for Jefferson County during the last five (5) years relative to your classification request as follows:

Project name:
Project Address:
Project description:
Prime Contractor
Contract amount
Completion date:
% of work performed with contractor's own forces:
 - 3a. List and provide a brief explanation of any disputes or conflicts with the County for the projects listed.
4. List all construction projects, in which you were prime contractor, completed during the last five (5) years relative to your classification request. Use the attached sheet for each project reference (make copies as needed or use page layout for computer-generated response).
 - 4a. Are there any judgments, claims, or suits pending or outstanding against your organization? If so, include details.
 - 4b. Has your organization filed any lawsuits with regard to the construction projects listed above? If so, include details.
5. Is your company, or any member of the company barred from doing work for local, state, or federal government?
6. Attach a list of key personnel and a description of their experience.
7. Attach a letter from your surety company stating your organization's bonding capacity.
8. Attach a list of major equipment owned or currently leased.
9. Attach a financial statement for the most recent fiscal year.
10. Include any other pertinent documentation to substantiate competence and financial responsibility.
