Types of Permits & when is a Permit Required?

- **Subdivision Plat Map**
 - ✓ Plat Map
- **Variance Case**
 - ✓ Plot Plan
 - ✓ Agent Authorization form (For Applications on behalf of the property owner)

When Do I Need a Building Permit?

A building permit is required for any residential and Commercial structure in unincorporated Jefferson County, including additions, accessory buildings, etc.

The following is a list of common projects that require **or** do not require a building permit.

Generally, you will be required to have a permit to begin construction, such as:

- ✓ Any new construction (new buildings and/or renovations to existing buildings that create a new area)
- ✓ Changing the land use of an existing commercial space
- ✓ Adding a secondary suite to an existing house
- ✓ Renovation projects that include moving interior walls and/or existing plumbing, electrical, or gas lines
- ✓ Structural repairs
- ✓ Drywall repairs to fire separations in multi-unit residential buildings
- ✓ Building or altering a garage, shed, or deck
- ✓ Renovating or tenant improvements for a new or existing commercial space

Many small projects and repairs do not require a permit. These include:

- ✓ Replacing fixtures, cabinets, or flooring
- ✓ Carry out non-structural maintenance and minor repairs to the exterior of your home
- ✓ Painting
- ✓ Unclogging drains
- ✓ Replacing defective fuses, receptacles, or switches

Not sure if you need a permit? When in doubt, please contact the Department of Development Services to determine if you are required to have a permit for your project.

Application & Review Fees

Fees can be paid through Online Services or in person by major credit cards, e-checks, and paper checks (only accepted in person).
